May 15, 2020 3:00 PM from Kexin Ma to all participants: Could HUD /HUD TA provide these training through webinar to case managers? It will be a burden for all the CoC to create / pay for for all these trainings for all the new staff that we will be hiring for CV fund. E.g. Racial equity training, progressive engagement, prevention or diversion training, housing first training. It would be great if HUD TA could provide that, and record those trainin so everyone could be trained in best practise and consistant among all programs.

May 15, 2020 3:08 PM from Shaye Rabold to all participants: For clarification, is Barbara referring to the HUD Changes to Coordinated Entry Prioritization...to COVID..., etc. guidance or new CDC guidance when she mentioned new guidance that is out now? Sorry, trying to keep all the great resources and guidance straight.

May 15, 2020 3:08 PM from John Gilvar to all participants: @Shaye, Yes, I think that's right.

May 15, 2020 3:09 PM from John Gilvar to all participants: @Shaye, I meant the new HUD document.

May 15, 2020 3:10 PM from Shaye Rabold to all participants: @John Gilvar-thanks. I see where she has it sourced at the bottom of the slide, but just wanted to make sure I haven't missed something.

Where can we find guidance on using ESG-CV for motel vouchers in a variety of situations where this temporary solution is needed to keep people safe?

May 15, 2020 3:14 PM from Josh Levin to all participants: Thanks for sharing that CE document.

May 15, 2020 3:14 PM from Debby Rieff to all participants: Where can we find guidance virtual inspections for HPRR ?

May 15, 2020 3:14 PM from Aaron Weaver to all participants: @Sheryl Kenny, the HUD Exchange Infectious Disease Homepage <https://www.hudexchange.info/homelessness-assistance/diseases/#covid-19-key-resources> has a number of resources from eligible cost guides, to case studies (eg. King County, WA).

May 15, 2020 3:15 PM from Josh Levin to all participants: "CoCs cannot set prioritization based solely on protected classes" -- does this mean we also cannot use age as a way to prioritize Covid-vulnerable people?

May 15, 2020 3:16 PM from Abt Associate to all panelists: from Moises Ramos to all attendees:

Any training and guidances on telehealth/telemedicine in concurrence to homelessness

May 15, 2020 3:17 PM from Toni Young to all participants: regarding "no prerequisites for shelter" - how does testing for COVID affect this requirement?

May 15, 2020 3:19 PM from DAVID CANAVAN to all participants: @Josh Levin - the key word is "solely". Please see this page from CDC that articulates the combining of age along with the initial research of susceptibility to illness that place an individual in the highly vulnerable category: <https://www.cdc.gov/coronavirus/2019-ncov/need-extra-precautions/people-at-higher-risk.html>

May 15, 2020 3:22 PM from Lisa Isay to all participants: lost audio?

May 15, 2020 3:22 PM from Jocelyn Gaspar to all participants: I still have audio

May 15, 2020 3:23 PM from DAVID CANAVAN to all participants: @Toni Young current testing capacity is focused on an individuals status at the moment they are tested. This permits limited utility for testing as a feature of enrollment as the current window from specimen collection to result can be as much as a week or more. An individuals exposure and risk would persist throughout that window of time. It remains important for programs to engage individuals around any health symptoms that allow them to access care, however as a prerequisite for enrollment it doesn't achieve the intent that many administrators are seeking.

May 15, 2020 3:23 PM from Jeanne Goodman to all participants: @Jonique, try the ... icon and Audio Connection.

May 15, 2020 3:24 PM from Amy Stewart to all participants: ditto re news on FY20 CoC competition? NOFA? We continue to encourage HUD to ask Congress to waive match on current and future CoC funding as it has with ESG-CV

May 15, 2020 3:26 PM from Stacey Warner to all participants: Has anyone had a facility based PSH program decide they weren't taking any new referrals for open units?

May 15, 2020 3:27 PM from Lisa Coffman to all participants: @Amy Stewart - can you talk more about how you found the SPARC training and the way you work with your YWCA on racial equity.

May 15, 2020 3:29 PM from Rachael Sample to all participants: Earlier in the pandemic we de-intensified shelter using larger congregate sites with smaller populations in the short-term and are now transitioning to open up a non-congregate site for high-risk/non-COVID-19 positive folks. Does anyone have sample intake procedures and non-congregate shelter policies that they could share? Please email them to:

May 15, 2020 3:29 PM from Angel Macchia to all participants: @Mollie, great question!

May 15, 2020 3:30 PM from Stacey Warner to all participants: Future topic idea - effectively working with local government entities including city and county govt, local emergency management departments, state emergency management, county and state health departments, etc. Including understanding what federal guidance they're receiving on their responsibilities and collaboration with the homeless system. It seems that they may not be hearing the same emphasis on their role and responsibility.

May 15, 2020 3:31 PM from Kexin Ma to all participants: With the Coc/ESG waiver, there is no waiver for ESG physical inspection. but i believe I heard that because the existing regulation does not require that. Just want to confirm that.

May 15, 2020 3:38 PM from Christiana Tugman to all participants: Please clarify how virtual inspections, whether HQS or Minimum Habitability address Lead-based paint regulations since those requirements have not been waived.

May 15, 2020 3:39 PM from Abby Miller to all participants: Prioritization cannot solely be based on protected class BUT it can be based on vulnerabilities--so in the current circumstances, CDC guidance provides categories of persons at heightened risk of severe impacts from COVID-19 exposure. Based on those, for instance, you would not only prioritize those 65+...you would also prioritize those with medical conditions that place people at heightened risk. By including all vulnerability factors, you are not basing solely on protected class.
