- All grantees are encouraged to enter data in the fields as applicable.
- Grantees should identify and report on certain green features. HUD is requiring all 'gut rehab' and new construction must be designed to meet the standard for Energy Star Qualified New Homes.

- If attempting to change an activity type, you may be prompted with a warning message if accomplishments have been reported in the QPR.

The screenshot shows the 'Action Plans' section of a web application. The navigation bar includes 'Admin', 'Action Plans', 'Drawdown', 'QPR', 'Reports', and 'Grants'. The main heading is 'Action Plans' and the sub-heading is 'Edit Activity - Page 1'. A warning message is displayed: 'Warning: Editing an activity type'. A dialog box titled 'Message from webpage' is overlaid on the page, containing the text: 'QPR is using performance measures associated with this activity type. Edit Activities: Action Plan Status

- Any change can trigger 'Modified' status.
- Check on the status of your AP to ensure QPR submission won't be delayed.
- Communicate with HUD Rep to expedite the review process; Courtesy call/email to highlight the specific changes you've made.
- Field Office staff should regularly check on Action Plan status: grantees may not be aware that they need to resubmit/still need to be approved.

Submit Action Plan

- Once all the edits/additions to the Action have been completed, Grantees must submit the Action Plan to HUD for review and approval.
- After clicking submit, the grantee's HUD Rep's email will default in the "To" field. Grantees have the option of searching and adding additional email recipients.
- HUD will be unable to view changes, so it is recommended grantees send an email to their HUD Rep explaining the changes.
