

## 1.14 Implementing Effective Contract Negotiation and Relationship Management Strategies 101 <sub>May 2020</sub>

Mary Schwartz, Abt Associates Fran Ledger, HUD SNAPS Office

## Webinar Instructions

- Webinar will last about 60 minutes
- Participants in 'listen only' mode
- Submit questions in Question and Answer box on right side of screen
- Webinar audio is provided through your computer speakers
- For technical issues, request assistance through the Question and Answer box
- Access to recorded version
- NHSDC will send you an evaluation after the session; please respond!

## Questions for the Presenters during this Session

- Please submit your content related questions via the Q&A box
- Send to Host, Presenter and Panelists

## Questions for the Hosts during this Session

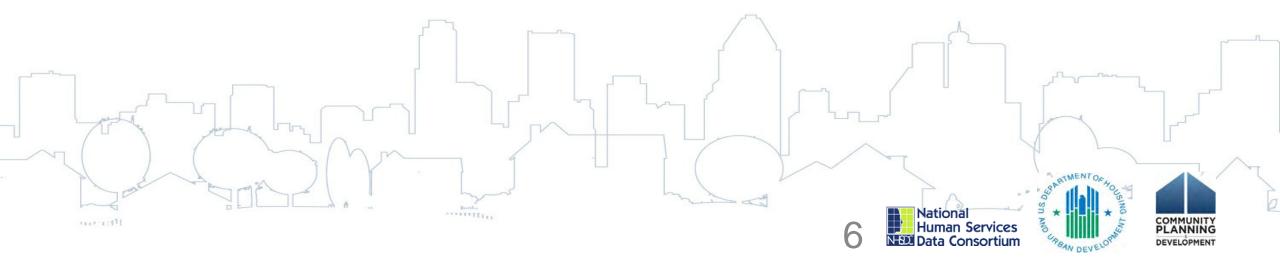

- Please submit any technical issue related questions via the Chat box
- Send the message directly to the Host
- Host will work directly with you to resolve those issues

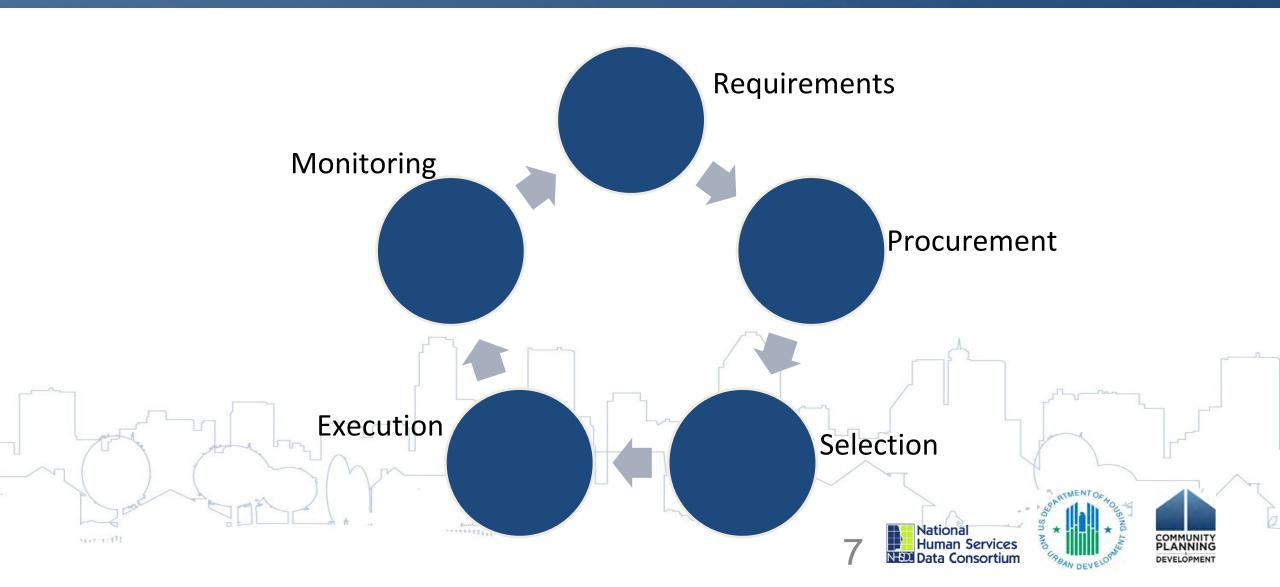

## Learning Objectives

In this session you will learn:

- Baseline knowledge of the contracting lifecycle
- To identify core components of an HMIS contract including writing requirements, procurement and selection, and monitoring
- To utilize the HMIS Software Checklist for writing requirements & monitoring

# The Contracting Life Cycle

#### What is a contract

TERMS ARE SIMPLE:

Nationa

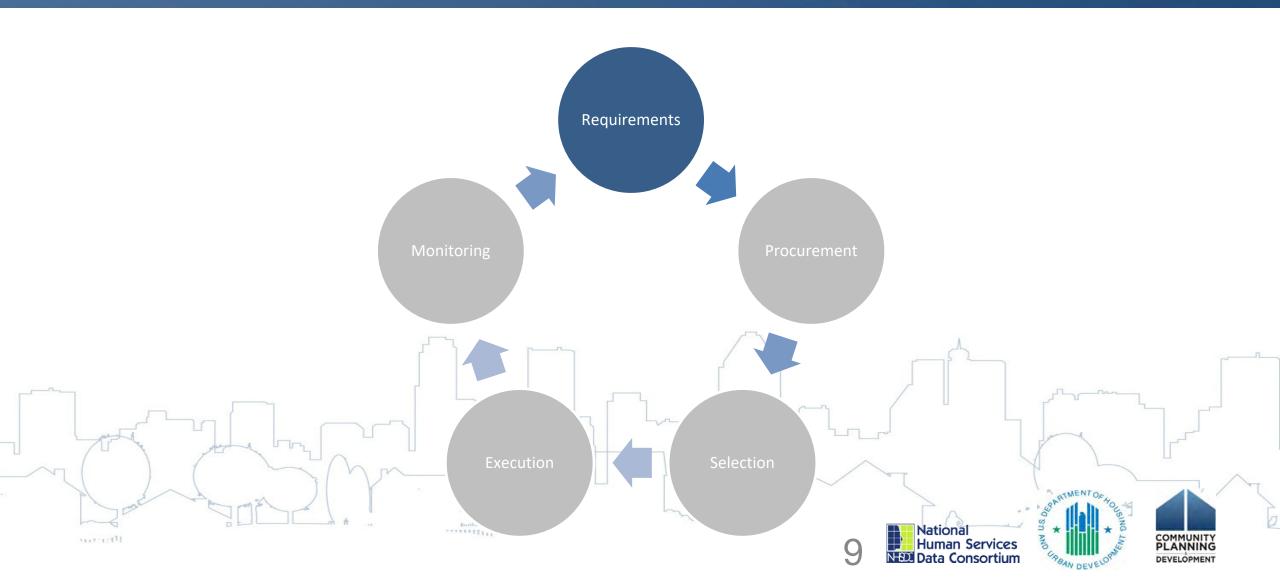

Human Services

COMMUNITY

DEVELOPMEN

- A contract refers to a written or spoken agreement, enforceable by law.
- A Memorandum of Understanding (MOU) refers to a type of agreement between parties, similar to a contract

# The Contracting Life Cycle

# Requirements

• Whose elephant is it?

	It's the CoC Leadership's Elephant	It's the HMIS Lead's Elephant	It's the Vendor's Elephant	It's HUD's Elephant
	§578.7(b) Designating and Operating an HMIS	2 CFR 200 §200.318 (b) [HMIS Lead] must maintain oversight to ensure that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders.	The Contract with Our Vendor Says that the software will be compliant with all HUD-defined HMIS requirements. Yes, and must be more	<ul> <li>HUD HMIS Requirements</li> <li>Data collection (some)</li> <li>Reporting (some)</li> <li>Security and privacy (some)</li> </ul>
7	Yes, and	(h) [HMIS Lead] must award contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement.	specific than this in the eventual contract	HUD makes some rules for some elephant behavior – but it is not HUD's elephant (because there is no contract between HUD and the HMIS Vendors).

Yes, and...

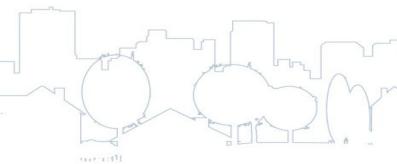

## Bug or Feature?

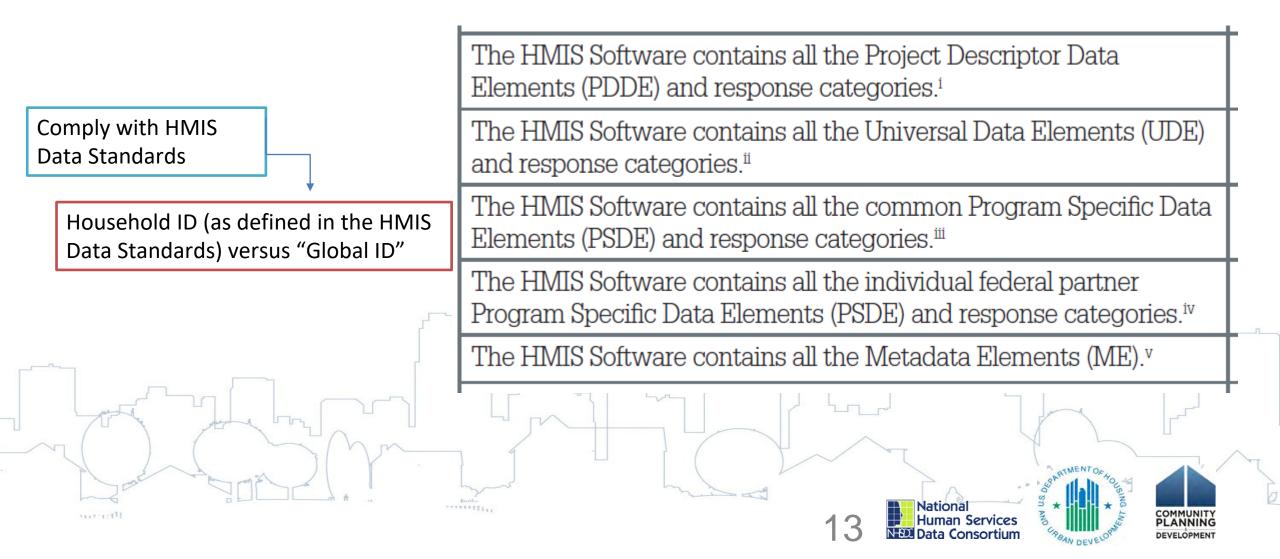

Possibly the nerdiest joke ever..

		Now I'm the HMIS Lead's elephant!			
	<ul> <li>For example:</li> <li>Category Requirement</li> </ul>		Have to Have	Nice to Have (Features)	
			(Functionalities)		
~~~~	Reporting	Produce APR for upload to HUD on regular grant cycle deadlines (annually for each CoC grant) and for ongoing data quality monitoring of CoC grantees	<ul> <li>CSV export to HUD specifications*</li> <li>Data quality output (in addition to APR .csv files) to highlight missing/low quality elements by client &amp; project</li> <li>Start date, end date, single or multi-project, single or multi-project type filters in addition to HUD required parameters</li> </ul>	Multiple formats for output of results: • Excel • Web page • Hyperlink to client data • Summary Visualizations of output	~

#### Requirement Details are Important!

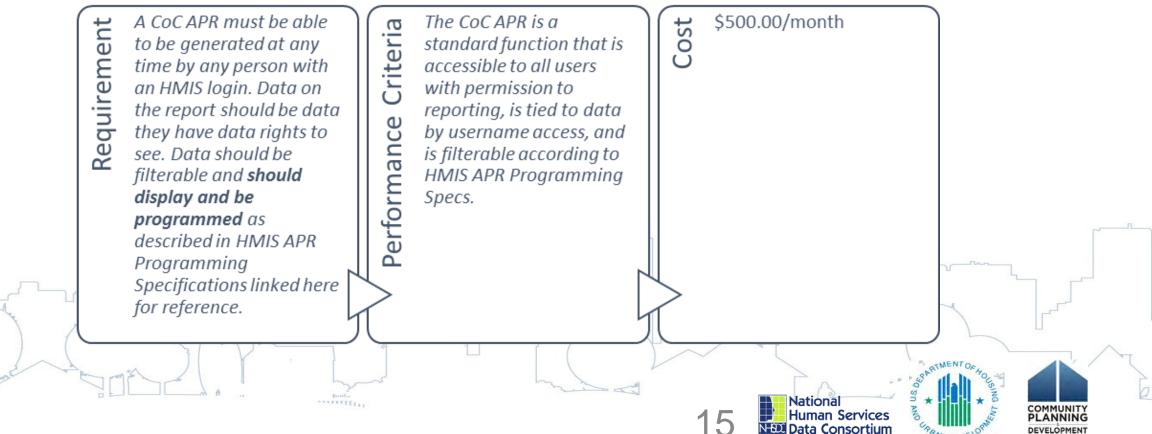

# The Contracting Life Cycle

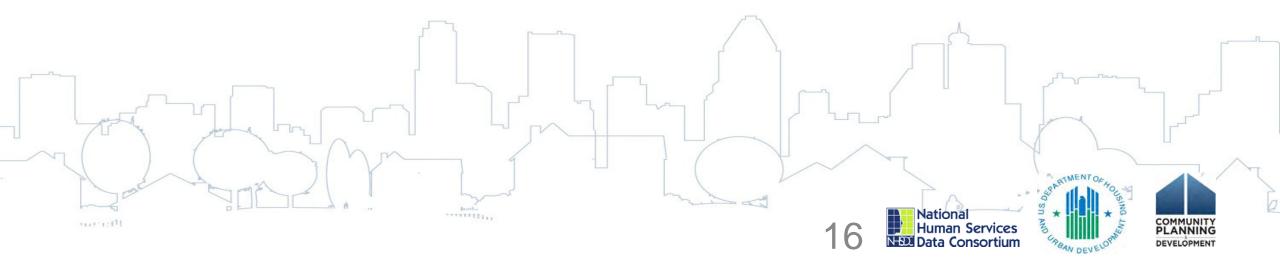

## Procurement / Selection / Execution

• Procurement: The Scope of Work for the contract with the vendor IS THE RFP for the competition and <u>choices are limited for how they can respond</u>

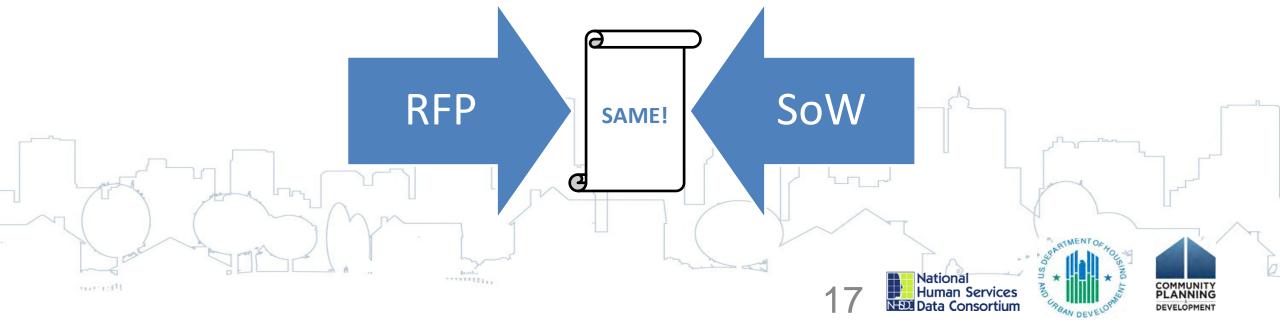

#### Procurement / Selection / Execution

- Selection: Each stage of the selection process ensures thorough scoring against the possibility that the vendor can carry out the scope of work
- Scores from selection committee are arrived at by reviewing the words the vendor write in their response, the hands-on demonstration of their product, and what other customers say about those functionalities/features when doing reference checks

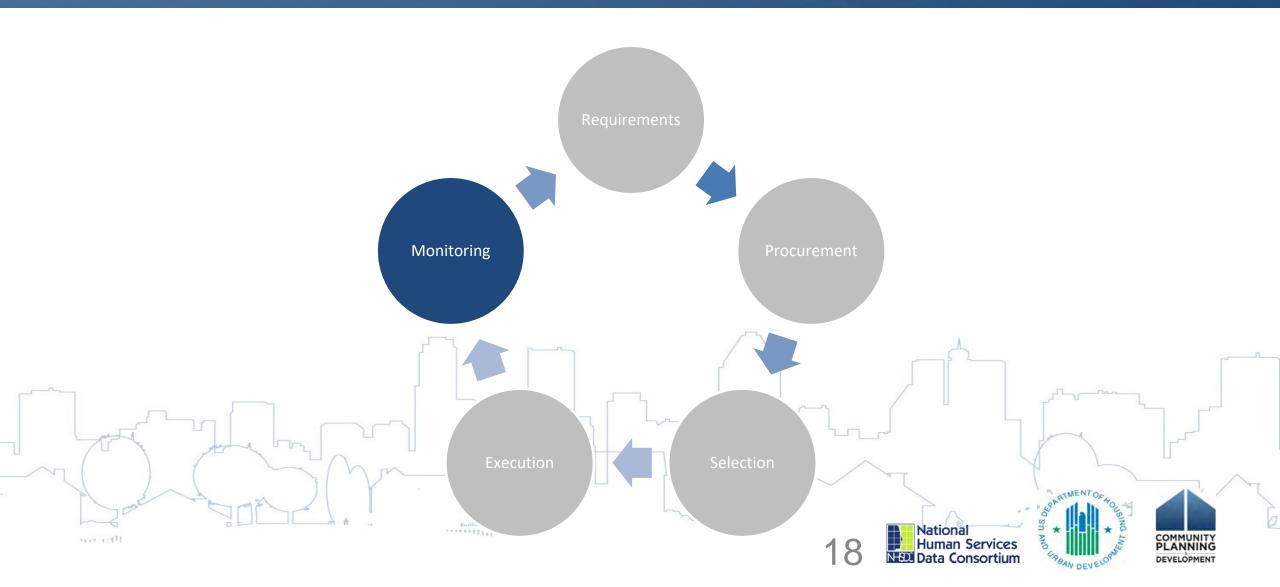

#### Procurement / Selection / Execution

- Execution: Ideally, following the described process, the contract is essentially already written because the Scope of Work (SoW) was defined in the beginning (in addition to other terms/conditions at RFP release)
- Requires minimal negotiation negotiation occurred during the RFP response and selection

## The Contracting Life Cycle

# Monitoring

Purpose of monitoring:

- Get the right software
- > At the right price
- While reducing risk, and
- Meeting community's needs

When should you monitor?

- Monthly against the Scope of Work when you pay the bill
- Annually against contract terms & conditions

# HMIS Vendor Monitoring Tool

- Monitoring or Measurement Question:
- $\circ~$  Does the HMIS software have the ability to de-duplicate client records?
- Response or Finding:
- The HMIS software de-duplicates client records using the following Universal Data Elements:
   First Name, Last Name, Date of Birth, and SSN, but not at the rate of confidence specified in the contract
- Improvement Strategy:
  - o Review HUD requirements on de-duplication from the 2004 HUD HMIS Technical Standards
  - The HMIS Lead should clarify contractual terms and conditions for the de-duplication of client records, including accuracy requirements of client merger or de-duplication processes, and the client data that is used in the de-duplication process, such as First Name, Last Name, Date of Birth, and SSN

o Withhold payments for this specific functionality as defined in the contract

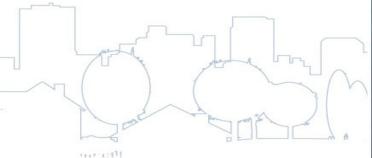

#### Monitoring

#### Vendor Change

## Vendor Change

- HUD would prefer that a CoC exhaust all options before considering a transition from one HMIS Software Vendor to another.
- Challenges are often human-related, not technology
- Challenges might be related to:

   Issues of CoC capacity to oversee the HMIS implementation
   HMIS staff capacity to operate the HMIS
   Ineffective end user training
   Insufficient resources (i.e. number of staff, funding, skills)
   Overly customized functionality
   Providers undervaluing HMIS.

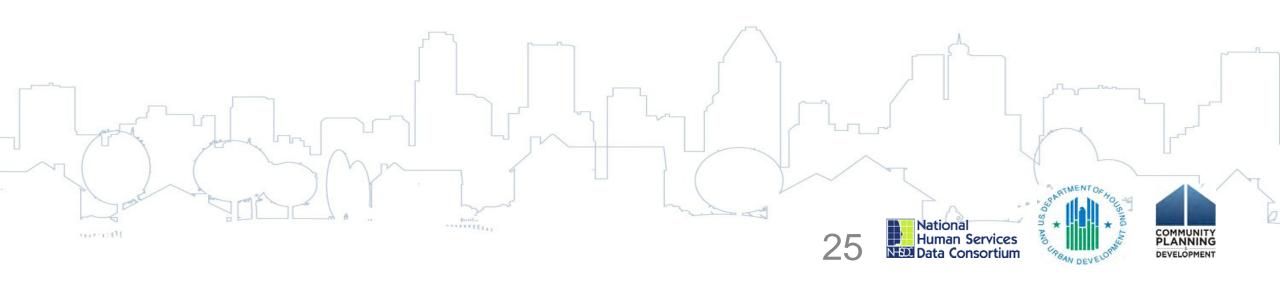

- ...Procure
  - Then work on monitoring or amending
- ...Amend
  - Then work on monitoring or procuring
- ...Monitor
  - Then work on amending or procuring

### Questions & Answers

## HUD Certificate of Completion

**Reminder**: HUD is offering a Certificate-of-Completion for completing four of the seven sessions within the HMIS Foundations track.

To earn credit for completion of this session, please make sure you included your contact details when the session

began.
