October 27, 2022 3:09 PM from Rebekah White to everyone: In New York City the people who live in housing projects are usually on disability from the Social Security Administration and public assistance to pay rent and buy food and for transportation and phone and electricity

They all have to have on-going public assistance and SSI which is Supplemental Security Income from the Social Security Administration and in New York City they are more sophisticated when it comes to how they do their public assistance and SSI

You sent

A lot more people would live in rural geographic areas if the government improved how they do public assistance and SSI which is Supplemental Security Income from the Social Security Administration

October 27, 2022 3:11 PM from Alyssa Andrichik to everyone: HUD's Safety Guidance document: https://www.hud.gov/program_offices/comm_planning/coc/pit-count?utm_source=HUD+Exchange+Mailing+List&utm_campaign=196ba2a899-2022_PIT_COUNT_NOTICE_OFFICE_HOURS_2021%2F11%2F17&utm_medium=email&utm_term=0_f32b935a5f-196ba2a899-19663807

October 27, 2022 3:12 PM from Gary Wickersing - He/Him to everyone: Will the multiselect option in HMIS for gender transfer to HDX 1.0 for PIT data entry?

October 27, 2022 3:12 PM from Steffi Travis to everyone: Some confusion for us initially about counting those who were sheltered by County Government with ERAP funds if these were sheltered (HIC) or unsheltered (PIT)

October 27, 2022 3:13 PM from Gary Wickersing - He/Him to everyone: Are the proposed HMIS changes for race/ethnicity being considered for PIT this year?

October 27, 2022 3:13 PM from Robbie Keen to everyone: The Health Department really stepped up in NOLA to assist with PIT in our area.

October 27, 2022 3:16 PM from Victoria Kelly to everyone: Pinellas County, FL used Outreach Grid for 2022's survey. There were certainly some bumps, but we were happy that we used it. Over 90% of our volunteers used it successfully, and it saved a couple thousand hours in data entry.

October 27, 2022 3:17 PM from Elizabeth Siddens to all panelists: I am the Two Rivers Point-in-Time chair here in Central Iowa. A question I get asked a lot is: "Why don't people who are homeless in jail get counted?" I try to explain that they have a roof over their head during the point in time count so that is why they're not counted for the unsheltered count. Is that accurate? Could they be counted as sheltered count or not?

October 27, 2022 3:17 PM from Yessenia Aguilar to everyone: Any updates on data elements?

October 27, 2022 3:17 PM from La Patra, Alicia to everyone: We have used ArcGIS and Survey123 for several years with great success - one of the primary complaints from volunteers was trying to complete a survey while holding a flashlight or wearing gloves. We resolved that by purchasing head lamps for our volunteers as well as touchscreen gloves

October 27, 2022 3:18 PM from Tiffany to everyone: Why aren't future PIT office hours on the PIT Office Hours link on HUD Exchange? Is there some place else I need to go to find those future dates? Thanks!

October 27, 2022 3:18 PM from Lori Irwin to everyone: Lori Irwin, Sherburne County Housing Resource Specialist Elk River, MN

October 27, 2022 3:19 PM from Michelle Herrera to everyone: Has their been any consideration changing those that are at Warming Stations as unsheltered instead of sheltered? These WS are run seasonally and from 7pm - 7 am. These individuals are roaming the streets during the day and they are not guaranteed a spot there every night. Thank you.

October 27, 2022 3:23 PM from Rebekah White to everyone: COVID-19 and coronavirus is why most people are unemployed in 2020 and 2021. There are economic recessions and there is severe poverty in the rural geographic area that I live in.

October 27, 2022 3:23 PM from William he/him to everyone: @Gary - great questions. First, HDX will not have a multiselect option for gender (or race). You can (and should) collect the data that way but then map the options the most appropriate single option (per the mapping guidance we provide in HMIS). This mapping guidance takes into account multiselect experiences. The issue for HUD is the need to have a 1-for-1 identity (i.e. unduplicated) when reporting. This same concept applies for race.

October 27, 2022 3:23 PM from Alyssa Andrichik to everyone: Link to PIT Count Sampling Tool: <https://www.hudexchange.info/resource/6218/how-to-use-sampling-within-a-coc-to-conduct-an-unsheltered-pit-count/>

October 27, 2022 3:34 PM from Yoav Spiegel to everyone: Wouldn't default ERAP participants be at-risk of homelessness and NOT included in the PIT Count and NOT included on the HIC?

October 27, 2022 3:35 PM from Rebekah White to everyone: You are very lucky to live in housing that is owned by the government. HUD is the United States Department of Housing and Urban Development is one of the executive departments of the U.S. federal government. It administers federal housing and urban development laws. Most HUD housing has stoves with ovens so people don't have to use credit cards to purchase those kitchen appliances. Most HUD housing has refrigerators with freezers so people don't have to use their credit cards to purchase those kitchen appliances. Most HUD housing has plumbing with kitchen sink and toilets and bathtubs and functioning heat and electricity. Some places that get money from the government don't always use that money to purchase the necessary supplies for carpentry and plumbing and electricity to make the repairs so those apartment buildings look like crap which is sad.

October 27, 2022 3:35 PM from Casey Bridges to everyone: If the EHA funding comes from a provider that serves our CoC but located outside of the geographic area, but the client is homeless/ in EHA located in our geographic area, which CoC counts them in their PIT?

October 27, 2022 3:37 PM from Rebekah White to everyone: You are very lucky to own a house. If you own property then you have to pay property taxes which most people cannot afford to pay property taxes. Most people that own houses cannot afford to purchase plumbing and carpentry supplies to repair the houses that they own so the houses are in shambles and fall apart and are dilapidated which means they are in a state of disrepair or ruin as a result of age or neglect. Some people don't have furnaces and are freezing cold in the winters because they cannot afford to pay for furnaces to have heat in the winters. Some people own houses that don't have clean water because they cannot afford to buy plumbing supplies and they cannot afford to buy sinks or toilets so the houses that they own are not livable places and they cannot pass building code inspections or fire code inspections.

October 27, 2022 3:37 PM from kayla to everyone: Why are funds not allocated to conduct PIT counts? We are gathering data that informs not only the federal government but also the public. The lack of funding further compromises the accuracy of the count.

October 27, 2022 3:41 PM from Rebekah White to everyone: There are so many empty zombie houses that have boards on the windows. There are empty zombie houses that have roofs that need to be repaired. There are empty zombie houses that need windows and weatherization and electrical wiring and fire code inspections. The National Guard is needed to help coordinate all of it please. It is just an idea I am asking Just asking. All I can do is ask. If the National Guard was coordinating the housing emergency crisis in the United States, then the National Guard could get all the women and their husbands and the children to work on renovating empty zombie houses for low income affordable housing. Habitat for Humanity has low-income housing projects but they need F.E.M.A. which is Federal Emergency Management to coordinate it as a national crisis in the United States for a shortage of low income affordable housing please

October 27, 2022 3:43 PM from josh to everyone: I don't see if it's been asked already but wanted to confirm if we are allowed a three day count again this year?

October 27, 2022 3:44 PM from Elizabeth Siddens to everyone: Can people experiencing homelessness who are in jail on the night of the count, can they be counted for unsheltered or sheltered count?

October 27, 2022 3:44 PM from Rebekah White to everyone: Try to have a good day.

The government should give more money to the United States Department of the Treasury to purchase supplies to renovate empty zombie houses that have gone into foreclosure because no one has money to pay property taxes. The empty zombie houses can be renovated and have apartments for low-income-affordable housing. Please try to work on getting money from the government for low-income housing across the whole entire United States. It is not just a New York State issue. It is across the whole entire United States that is having severe poverty and a lack of low-income affordable housing.

October 27, 2022 3:44 PM from Elisa Rawlinson CA-519 to everyone: My understanding is we can't count the children because we can't count people if we don't meet them in person.

2022 PIT Count Office Hours: Chat

October 27, 2022 3:46 PM from Rebekah White to everyone: It is sad. I read everything that you send me.

Oneida County got more money from the government so that they could have mass incarceration in Oneida County in New York State.

There is plenty of money from the government to pay the salaries of more New York State police but yet the government doesn't have money for low-income affordable housing because why?

October 27, 2022 3:46 PM from Denny Wetmore to all panelists: I am an HMIS lead. Is there a funding stream I can use that will allow me to help my CoC lead with the PIT? We are in Colorado Balance of State and the CoC has very limited planning dollars, from what I understand. I'd love to assist with equipment for electronic surveys but I can't any of my HMIS funds to assist. Is that accurate? Any workarounds?

October 27, 2022 3:46 PM from Chris OHara to everyone: can the pit use hospital staff in the count

October 27, 2022 3:47 PM from Rebekah White to everyone: I don't like the direction that the economy in the United States is going in because it is causing poverty throughout the whole entire United States. The economy is geared towards having pro-birth. The economy is geared towards having mass incarceration and illiteracy.

October 27, 2022 3:47 PM from Chris OHara to everyone: also what do you think about abandoned property canvass techniques

October 27, 2022 3:47 PM from Elisa Rawlinson CA-519 to everyone: Could you not task mckinney vento liasons with completing surveys for those children? - We've tried that in the past. The problem ended up being they don't always know a child's housing status, and in order to get the information from children they often had to call them out of class, which ended up putting children in a bad position with their classmates due to why they were being called out of class.

October 27, 2022 3:48 PM from aaronlshaw234 to everyone: Since there are questions regarding the inclusions of jails and hospitals during the PIT can we also consider those that have been BAKER ACTED during this time as well as those that are in Mental Health facilities?

October 27, 2022 3:49 PM from Rebekah White to everyone: If they had a lot more low-income affordable housing that had kitchens with stoves and refrigerators then they could close the correctional facilities. Put the jails out of business. It is a business. Money from the government paid to build those buildings that the correctional facilities are in. The correctional facilities can close and go out of business.

October 27, 2022 3:50 PM from Cassandra.Myers to everyone: Will pre-designated search areas be utilized again this year (green areas on the map via Counting US)?

October 27, 2022 3:50 PM from Lloyd Schmeidler to everyone: The HMIS can do a good job of counting everyone experiencing homelessness over the course of a year, if projects are using the HMIS.

October 27, 2022 3:50 PM from Rebekah White to everyone: Because it's not the employees that cook clean does the laundry or any of that it's the inmates that do all that stuff. - so if it is the inmates doing all the work then what exactly do the correctional officers get paid to do? Money from the government pays the salaries of the correctional officers to do nothing all day because why?

October 27, 2022 3:51 PM from Rebekah White to everyone: No one is being rehabilitated in any of these correctional facilities. The word, "punishment" means what? Parents physically spank and beat the shit out of their children to punish them but their children are not learning anything that you might want them to learn because they are learning that they have to be scared and afraid of physical violence. The children learn to be scared and afraid of their parents when the parents physically hit them. The children develop dysfunctional ways of thinking when parents physically hit them and this way of thinking is what some of the employees at the correctional facilities learned. The way that they think is learned. No physical labor for the punishment of crime should be used and Human Rights should be notified. Call Human Rights and notify human rights of the abuse that is going on. People are being held as prisoners so government employees can make money. Money from the government pays the employees.

2022 PIT Count Office Hours: Chat

October 27, 2022

October 27, 2022 3:51 PM from Marshall Goldsmith to everyone: Would you count someone that is in the ER but probably released later that night

October 27, 2022 3:52 PM from aaronlshaw234 to everyone: I have to leave early, can I please be emailed of the next PIT Count Office hours?

October 27, 2022 3:52 PM from Rebekah White to everyone: Mass incarceration causes poverty. There are other ways for communities to get money from the government. Instead of getting money from the government for mass incarceration, the communities could work on economic development. More recreational activities such as New York State Parks and Recreation would help create healthier activities for the adults and teenagers and children and the government could give supplies or money to develop the recreational activities in rural geographic areas which is a form of crime prevention, and it also could be prevention of pregnancy and would increase education such as completing a high school diploma and getting GEDs. The sheriff and correctional officers could be paid the same amount of money and be assigned to do different tasks because it all comes down to dollars and cents and it is all about getting money from the government into the geographic area. Money from the government is what drives them to have the behaviors that they do.

October 27, 2022 3:52 PM from aaronlshaw234 to everyone: Thank you

October 27, 2022 3:52 PM from Robert Ward to all panelists: The question really is why the planning grants are not higher

October 27, 2022 3:52 PM from Rebekah White to everyone: The sheriff and correctional officers could be paid the same amount of money and be assigned to do different tasks because it all comes down to dollars and cents and it is all about getting money from the government into the geographic area. Money from the government is what drives them to have the behaviors that they do. A lot of people don't graduate from high school because they don't have any financial incentives to graduate from high school, especially in rural geographic areas because there is a labor shortage which means that there is not enough employment for the number of people. The labor shortage is also being caused by illiteracy which is a lack of education. It is a cycle that has been going on

for years. Generation after generation of illiteracy and poverty has been going on in rural Upstate New York. Low-income affordable housing is needed in rural geographic areas. Tell them to send supplies to renovate the empty zombie houses and empty zombie buildings, please.

October 27, 2022 3:52 PM from Meghan Henry to everyone: @Marshall, if the PIT count is conducted overnight (which is the guidance) and that person is released during the PIT count hours, yes.

October 27, 2022 3:52 PM from Shantae Smith to everyone: Hi Rebkah, thank you for your valuable input towards homelessness and services to those in need. We kindly ask that you please utilize the chat to ask questions about implementation of the upcoming count.

October 27, 2022 3:53 PM from Kim Ball to everyone: I am seeing questions in the Chat, but no response, so will responses be posted or sent out to participants?

October 27, 2022 3:54 PM from Tracie Cunningham to everyone: AMEN Shantae!!

October 27, 2022 3:54 PM from Shantae Smith to everyone: Hi Kim, most of these answers are being provided verbally. A recording of the webinar will be available later.

October 27, 2022 3:54 PM from Meghan Henry to everyone: @Kim, we are trying to get through them all. What we don't get through we will answer and post.

October 27, 2022 3:54 PM from John Connery to everyone: For counties that use observation based counts, is there any guidance on how differentiate between all the new age ranges? How can teams best tell between 43-year-old and 47-year-old?

October 27, 2022 3:54 PM from Shelby McDonald to everyone: thank you shantae

October 27, 2022 3:55 PM from Lynn Suchwalko to everyone: Yes question @John just asked regarding observation surveys and determining ages

October 27, 2022 3:56 PM from Torrie Kopp Mueller she/her to everyone: Thanks William! Just wanted to be sure nothing had changed on pallet shelters and tiny houses. Wanted to know if we should re-evaluate.

October 27, 2022 3:57 PM from April Reed to everyone: If there is no specific governance in place, is a designated HMIS Lead agency required or obligated to seek/gain CoC approval for use of an app to conduct the count?

October 27, 2022 3:58 PM from Lloyd Schmeidler to everyone: But, the interview needs to ask the question, "Where did you sleep on the night of the PIT Count?" right?

October 27, 2022 3:59 PM from Meghan Henry to everyone: @Lloyd, YES. Thank you for the follow-up.

October 27, 2022 3:59 PM from Selina Sun to everyone: Wondering about how "self-reporting" could work for an unsheltered count - would phone surveys count if a CoC sets up a hotline for individuals experiencing unsheltered homelessness on the PIT Night to call in to be surveyed on the phone?

October 27, 2022 3:59 PM from Steffi Travis to everyone: Really great information. THANK YOU.

October 27, 2022 3:59 PM from Karl Vanderburgh to everyone: Thank you.....great information!

October 27, 2022 4:00 PM from Tony Watkins to everyone: Thank you.
