How Fund Use Addresses Market Conditions:

Funds used in the NSP III program will provide market condition improvement by:

 - By purchasing sub-standard housing and removing them from the housing inventory creating an enhancement of the need for new construction and creating new jobs
 - Eliminating blighted or abandoned properties that are health and safety risks
- The recession has affected the Charlotte County area in significant proportions. At one point, this County had the highest rate of foreclosures in the State. This has not diminished to this point. A number of foreclosed, abandoned, or blighted structures are in this target area. Stabilization of these conditions in this neighborhood will enhance recovery the recovery in this area.

These funds are being used as the kickoff of a much larger project being undertaken by the County and the neighborhood residential and commercial interests to commit further resources over the next ten years in the target area to further rehabilitate the neighborhood.

Ensuring Continued Affordability:

Charlotte County will maintain affordability standards for NSP III assisted housing by adopting minimum HOME standards of homeownership as found at 24 CFR 92.252 (a) (c) (e) and (f) and to ensure long term affordability.

Currently Charlotte County is adhering to the Charlotte County Local Housing Assistance Plan that requires a minimum of twenty years of affordability that relates to a 30% maximum of income levels of households for the cost of housing. Income eligibility is based on the Area Median Income as published annually by the U.S. Department HUD.
