**Plan Description:**

Broward County Neighborhood Stabilization Program (NSP) has prioritized funding to those non-NSP entitlement municipalities and unincorporated areas with the greatest percentage of home foreclosures and subprime loans, those areas most likely to experience a significant rise in the rate of home foreclosures, and those communities with the highest concentration of moderate to low income households. The intent of this approach is to disperse funding across the County's smaller municipalities and unincorporated areas in a fair and equitable manner based upon community need. Broward County will utilize census tracts to target specific areas for assistance.

**Recovery Needs:**

Broward County identified areas of need for its Neighborhood Stabilization Program (NSP) funding by first focusing upon the "Foreclosure and Abandonment Risk" index published by HUD. The County has selected and identified those census tracts located outside NSP entitlement communities which are most likely to be impacted by future foreclosures.

Next, the County utilized the actual existing foreclosure rates by census tract, which was extracted from HUD data regarding the rates of foreclosure in the County.

Finally, the County will utilize existing maps that identify those census tracts with high concentrations of subprime loan products. In addition, the County will focus only upon those census tracts which are "middle-moderate-low income eligible." The remaining eligible census tracts will then be prioritized according to the level of subprime lending, and will represent a final tier of analysis when deciding where to expend NSP funds.

## Progress Toward Activity Type Targets

## Progress Toward National Objective Targets

### Overall Progress Narrative:

Broward County's NSP acquired its first single-family and multi-family housing units during this reporting period. The pace of acquisitions accelerated quickly, and the County is on target to expend or commit all NSP funds in a timely manner. Additional program expenditures under the "Rehabilitation/reconstruction of residential structures" activity will commence during the next quarterly reporting period, when several acquired properties move into the rehabilitation phase of the project. This will further accelerate the pace of program expenditures and unit production. In addition, acquisitions of single-family and multi-family property will continue. We expect to have expended 15-20% of our total NSP grant by the end of the next quarterly reporting period.

**Activity Description:**

As the County's primary strategy funded by the NSP allocation, this activity seeks to reverse the negative effects of foreclosed or abandoned homes upon Broward County neighborhoods by providing financing for the acquisition and redevelopment of these problematic properties. Beneficiaries will be middle, moderate and low income homebuyers, who will receive title to the property along with a declaration of restrictive covenants which will specify the long-term affordability requirement of the property (30 years). It is expected that this strategy will provide safe, decent and affordable housing to a minimum of forty-five (45) middle, moderate, and low income households. Initial program dollars allocated to this activity will be realized as program income and re-invested in the activity and will create additional units of affordable housing until the programs anticipated end date of July 30, 2013. It is anticipated that between 15-25% of this activity will benefit those households below fifty percent (50%) of area median income.

**Location Description:**

To be located on scattered sites throughout the unincorporated County, and the urban County cities participating in Broward County's CDBG program. Sites will be prioritized according to HUD's foreclosure abandonment risk score.

**Activity Progress Narrative:**

Acquisition of 5 units of single-family housing.
