## Narratives

### Areas of Greatest Need:

Statistics show South Florida as one of the top 5 regions in the United States that was hit the hardest by the current housing foreclosure and financial crises. Within the past five years, property values sky rocketed as a result of a buying frenzy inspired both by investors trying to take advantage of appreciating housing market conditions and of homebuyers eager to be able to share in part of the American dream at any cost, lured by attractive, but deceiving financial instruments private lenders set in place to profit from the appreciating market. These facts paired with a large sub-prime mortgage loan market and a stagnant economy with high unemployment rates contributed to the large number of foreclosure proceedings we encounter today in the City of Fort Lauderdale.

### Distribution and and Uses of Funds:

Based upon the data and projections utilized, arguably, over 95% of the City of Fort Lauderdale could be considered under "great need" for some financial relief. Nevertheless, it is clear that the concentration of high foreclosure risk factors, sub-prime mortgage loans, and actual cases under foreclosure proceedings are located in certain areas of the City. As such, the City has catalogued these areas and other pockets around the City that show similar trends as the "Areas of Greatest Need." These areas will be targeted by the City and will be given priority in the allocation of NSP funding.
