Narratives

Areas of Greatest Need:

A. Areas of Greatest Need Mortgage foreclosure in the City of Fort Wayne is on the rise. In the three year period from 2006 through the end of 2008, a total of 3,665 properties have been foreclosed on by the mortgage lender or servicing agent. Each year the total number of foreclosures completed by lenders has risen. In 2006, lenders foreclosed upon 1,156 mortgages in Allen County. In 2008, the number will likely exceed 1,450, a 25% percent change from 2006 to 2008. The Allen County Auditor recently published a listing of properties that will be auctioned in November 2008 due to delinquency in paying property taxes. There are 2,836 properties on the list, of which approximately 80% are located in Fort Wayne. According to data provided by HUD that measures the mortgages made by lenders between 2004 and 2006, 86% of Census block-groups in Fort Wayne have a rate of high-cost loans that exceeds 24%, i.e. where almost one out of four mortgages is a high cost loan. Nearly 30% of block-groups have a rate exceeding 50%. The urban core and southeast quadrant of Fort Wayne is most impacted by high-cost loans, where rates approach 75%. The Abandonment Risk data provided by HUD puts block groups into four categories, where a score of 9-10 represents the highest risk. More than half of eligible block groups have a score of 9-10. The urban core and southeast quadrant of the city comprise the majority of those highest risk block groups. The patterns of tax delinquency and mortgage foreclosure collected by the City aligns with the high-cost loan and abandonment risk data provided by HUD. This indicates that mortgage and tax foreclosures are affecting most neighborhoods in the City of Fort Wayne. However, the area of greatest need is the City's urban core and southeast quadrant. The eligible census block groups within this geography are identified. Table 1 - Area of Greatest Need by Census Block Group As required by statute, the City will target funds to the areas of greatest need, including those with the greatest percentage of home foreclosures, the highest percentage of homes financed by subprime loans and those identified as likely to face a significant rise in the rate of home foreclosures. Eligible census block groups within the Area of Greatest Need are identified in Table 1 - Area of Greatest Need by Census Block Group. The following Community Development Planning Areas are included in the Area of Greatest Need: Northside, North Anthony, Bloomingdale/Spy Run, Five Points, Hamilton/Nebraska, West Central, East Park, Memorial Park, St. Mary's East, Packard Area, Hanna Creighton, Harvester, McMillen Park.

Distribution and and Uses of Funds:

B. Distribution and Uses of Funds The City will develop an NSP Implementation Strategy after submitting the NSP Substantial Action Plan Amendment. The Implementation Strategy will identify and prioritize specific census block groups and neighborhoods within the Area of Greatest Need where existing planning, local investment and organizational capacity exist and can be leveraged by strategic deployment and recapitalization of NSP funds. Beyond the Area of Greatest Need, the City of Fort Wayne recognizes how the foreclosure crisis is affecting -tipping point- neighborhoods. These are neighborhoods that have a stable home ownership market and include active homeowner organizations, consistent and high levels of property maintenance, and a history of appreciating values. One or two foreclosures on an otherwise intact block in a tipping point neighborhood may have the potential to initiate a localized pattern of abandonment and a downward spiral in property value. NSP presents an opportunity to provide subsidy to place those individual properties back into productive use. Therefore, the City proposes distributing and using their NSP funds in two geographic areas: - Area of Greatest Need Focus Areas - Tipping Point Neighborhoods NSP funds will be used in four (4) primary activities, plus administration. Area of Greatest Need Purchase and Rehabilitation for Homebuyer Purchase - The City will acquire and rehabilitate abandoned and foreclosed upon residential properties and resell them to income-eligible homebuyers. Purchase and Rehabilitation of Rental Units - The City will acquire and partner with a developer to rehabilitate abandoned and foreclosed upon residential properties to be used as rental housing. This program will be used to meet the requirement that 25% of NSP funds be used to serve residents earning at or below 50% of the area median income. Acquisition, Demolition and Stabilization for Future Redevelopment - The City will use NSP funds to acquire, demolish and stabilize abandoned and foreclosed upon properties. These properties will be land banked until new housing units can be constructed. Tipping Point Neighborhoods Rehabilitation for Homebuyer Purchase - The City will provide NSP funds to rehabilitate abandoned and foreclosed upon residential properties to developers and income-eligible owners. If a developer owns the unit, it will be resold to an income-eligible

homebuyers. C. Definitions and Descriptions 1. Blighted Structure \hat{z} Indiana State Code Unsafe Building Law The City of Fort Wayne will adopt the State of Indiana's definition of blight, which they call unsafe buildings and unsafe premises. Those definitions are described under Indiana Code (IC) 36-7-9-4 Unsafe Building Law and are defined below: Sec. 4. (a) For purposes of this chapter, a building or structure, or any part of a building or structure, that is: (1) in an impaired structural condition that makes it unsafe to a person or property (2) a fire hazard; (3) a hazard to the public health; (4) a public nuisance; (5) dangerous to a person or property because of a violation of a statute or ordinance concerning building condition or maintenance; or (6) vacant and not maintained in a manner that would allow human habitation, occupancy, or use under the requirements of a statute or an ordinance; is considered an unsafe building. (b) For purposes of this chapter: (1) an unsafe building; and (2) t

Distribution and and Uses of Funds:

he tract of real property that does not contain a building or structure, no including land used for production agriculture, is considered an unsafe premises if the tract of real property is: (1) a fire hazard; (2) a hazard to public health (3) a public nuisance; or (4) dangerous to a person or property because of a violation of a statute or an ordinance. 1. Affordable Rents NSP-assisted units will carry rent and occupancy restriction requirements. The rents will be set so that individuals pay no

Progress towards LH25 Requirement	\$2,305,255.75		\$2,303,522.37

Overall Progress Narrative:

The NSP1 Program is substantially complete. The only active activities are DT01, HB801 and MCMIL. DT01: This activity involves the purchase of buildings on Columbia Street in downtown Fort Wayne. The City partnered with a local non-profit, the Downtown Development Trust, to develop Columbia Street into retail, housing, and commercial space. Cincinnati-based Model Group was selected as the development partner to help design the overall project and help secure additional necessary funding. All residential buildings are complete and have received Certificates of Occupancy. The City is working with the developer and management company to obtain NSP unit information and close the project out. HB801 involves the acquisition and rehabilitation of a property in the historic West Central neighborhood. NSP3 funds were used to acquire the property. This property is adjacent to St. Joseph Hospital. Though the City received 3 proposals for the development of this property, there was no feasible and eligible end use for the property. The City sold the property and is returning the funds back to HUD as an eligible end use was not achievable. MCMIL: Phase 1 of the construction of 44 units of rental housing to residents below 60% AMI is complete and the developer is finishing punch-list items. NSP Units will be below 50% AMI and will be considered "set-aside" units.

Activity Description:**Location Description:****Activity Progress Narrative:**

DT01: This activity involves the purchase of buildings on Columbia Street in downtown Fort Wayne. The City partnered with a local non-profit, the Downtown Development Trust, to develop Columbia Street into retail, housing, and commercial space. Cincinnati-based Model Group was selected as the development partner to help design the overall project and help secure additional necessary funding. All residential buildings are complete and have received Certificates of Occupancy. The City is working with the developer and management company to obtain NSP unit information and close the project out.

Activity Description:

Location Description:

Activity Progress Narrative:

Activity #HB801 involves the acquisition and rehabilitation of a property in the historic West Central neighborhood. NSP3 funds were used to acquire the property. This property is adjacent to St. Joseph Hospital. Though the City received 3 proposals for the development of this property, there was no feasible and eligible end use for the property. The City sold the property and is returning the funds back to HUD as an eligible end use was not achievable.

Activity Description:

Project includes the acquisition, rehabilitation and adaptive-reuse of the property located at 1651 Cass Street. A non-profit organization is proposing acquiring the property and rehabbing it for use as a public facility, more specifically a day-center for a range of public activities.

Location Description:

1651 Cass Street, Fort Wayne, Indiana, 46808

Activity Progress Narrative:

NSP1 funds were used for the acquisition of the property located at 1651 Cass Street, Fort Wayne, IN. The rehabilitation of the building on the property is complete and the building is currently being used as a public facility.

Activity Description:

Acquisition of blighted multi-family rental units at McMillen Park Apartments. Currently the existing property is more than 80% vacant and is in foreclosure. After all existing residents are relocated the City will use CDBG funds to demolish the buildings. Redevelopment plans will be determined in the near future. As of August 31, 2010, all relocation activities were complete and the last of the remaining tenants were relocated. Bids for demolition will begin in January, 2011. UDPATE 1/1/2013: All demolition and clearance is complete. City plans to begin holding public meetings in 2013 to begin determining future use of the site.

Location Description:

4209 Plaza Drive, Fort Wayne, Indiana

Activity Progress Narrative:

The blighted and foreclosed upon apartment complex was acquired at closing on September 1, 2010. Demolition of the former blighted apartment complex is complete and seeding of the property is done. In the 4th quarter of 2013 the City held preliminary meetings with outside developers to gauge interest/ideas for the property. A market study was completed in the 2nd quarter of 2014 which includes the McMillen site. The market study will help the City determine the most appropriate use for the site. As of September 30th, 2016 a developer, BWI, inc., has been approved for LIHTC funds for a project known as "Posterity Heights" on this site. This proposal will incorporate housing expenses, energy costs and transportation expenses into a single bill that would be capped at 45% of a households income. Closing on financing for this project is complete and construction of a 44 unit "Scholar House" is complete. Phase 1 of the construction of 44 units of rental housing

to residents below 60% AMI is complete and the developer is finishing punch-list items. NSP Units will be below 50% AMI and will be considered "set-aside" units.

Activity Description:

Acquisition and rehabilitation of a single family, single unit, residential house. Upon satisfactory completion of rehabilitation work by Fort Wayne Habitat for Humanity, Inc., the home will be occupied by a NSP-eligible homebuyer earning at, or below, 50% AMI.

Environmental Review completed on August 24, 2010.

UPDATE: Habitat for Humanity has repaid the funds to the City and cancelled their contract. The City has returned these funds to HUD. This activity will not be cancelled, however, because DRGR does not allow the cancellation of an activity if funds have been reported as expended in a previous QPR.

Location Description:

1710 Tecumseh Street, Fort Wayne, IN 46805

Activity Progress Narrative:

Due to lack of agency capacity and a misunderstanding of Federal requirements, Fort Wayne Habitat for Humanity has terminated their NSP-25% set-aside contract with the City of Fort Wayne. The City has returned all expended funds to HUD. Staff salary costs associated with this activity have been reprogrammed to RP001, an NSP-eligible project.

City of Fort Wayne2	\$0.00	\$0.00
Most Impacted and Distressed Expended	\$0.00	\$0.00

Activity Description:

Acquisition and rehabilitation of a single family, single unit residential house. Upon satisfactory completion of rehabilitation work by Fort Wayne Habitat for Humanity, Inc., the development team, the house will be occupied by a homeowner earning at, or below, 50% AMI.

Environmental Review completed on April 8, 2010.

UPDATE: Habitat for Humanity has repaid the funds to the City and cancelled their contract. The City has returned these funds to HUD. This activity will not be cancelled, however, because DRGR does not allow the cancellation of an activity if funds have been reported as expended in a previous QPR.

Location Description:

1739 Sherman Blvd, Fort Wayne, IN 46808

Activity Progress Narrative:

Due to lack of agency capacity and a misunderstanding of Federal requirements, Fort Wayne Habitat for Humanity has terminated their NSP-25% set-aside contract with the City of Fort Wayne. The City has returned all expended funds to HUD. Staff salary costs associated with this activity have been reprogrammed to RP001, an NSP-eligible project.

Activity Description:

Construction of 66 new housing units that will built as part of a lease-purchase program in the Renaissance Pointe neighborhood in southeast Fort Wayne. All construction is complete and all units have been leased to individuals and/or families earning at or below 60%AMI.

Location Description:

Renaissance Pointe Neighborhood, Fort Wayne, IN 46803

Activity Progress Narrative:

The City of Fort Wayne has partnered with Renaissance Pointe Community, LP to build 66 lease-to-own single family units in the Renaissance Pointe neighborhood. 5 of the 66 units are considered floating NSP units and are rented to NSP-eligible tenants. All 66 units (including the 5 NSP) have been completed.
