### Narratives

#### Areas of Greatest Need:

Population in Lansing has been declining slowly for two decades. Unemployment has increased to more than 10% city wide, and the number of vacant units topped 13% of the housing stock, even before the mortgage foreclosure crisis began to hit in full. The number of foreclosures more than tripled between 2004 and 2007. Foreclosures continued to rise through 2008 and remained high in 2009. Most of the City faces a high or very high risk of foreclosure abandonment in the next 18 months. Based on data available in fall 2008, eight areas of the city had seen a concentration of subprime lending and foreclosure activity. These were selected as NSP priority areas. They are Comstock Area, Prudden, Oak Park, Urbandale, Vision 2020, Potter Walsh, Baker Donora and Southwest Lansing neighborhoods.

#### Distribution and and Uses of Funds:

Activities need to take place to encourage stabilization of the housing market. Excess supply of housing needs to be reduced by acquiring and demolishing vacant blighted housing units and substandard housing that cannot be fully rehabilitated because it is located in flood prone areas. Vacant housing that is contributing to neighborhood decline needs to be rehabilitated and sold where completed units can be successfully marketed. Some vacant housing units need to be rehabilitated for rent to homeless families. Neighborhood stabilization assistance needs to be made available to help citizens mobilize themselves to combat blight and housing deterioration. Some new construction is needed on infill lots. Prospective home owners need assistance to reduce financial barriers to home ownership and overcome buyers' reluctance to purchase in an uncertain housing market. Funds need to be spent on administrative activities necessary to complete neighborhood stabilization initiatives.
