Definitions and Descriptions:

C. DEFINITIONS AND DESCRIPTIONS

(1) Definition of a blighted structure in the context of state or local law.

Response:

For purposes of determining blighted structures to be assisted with the NSP funding, blighted structures will be defined as any structure unfit for use,

habitation, or dangerous to persons or other property. In addition, a structure is blighted when it exhibits objectively determinable signs of deterioration

sufficient to constitute a threat to human health, safety, and public welfare. This includes structures showing evidence of physical decay or neglect,

excessive use, or lack of maintenance.

(2) Definition of affordable rents. Note: Grantees may use the definition they have adopted for their CDBG program but should review their existing definition to ensure compliance with NSP program specific requirements such as continued affordability.

Response:

The City of Margate will not be renting the rehabilitated homes. They will be available for purchase. If the City were to rent, then they would follow HOME

guidelines for affordable rents (reference 24 CFR 92.252(a),(b),(c) and (e)

(3) Describe how the grantee will ensure continued affordability for NSP assisted housing.

Response:

The City will monitor the properties that are assisted with NSP funds during the affordability period to ensure that the specified units are affordable. This

will be done utilizing the standards established with the HOME Program. The minimum threshold that will be used to ensure long term affordability will be

consistent with the guidelines of the HOME Program as defined in 24 CFR 92.254 (a) 1,2,3 & 4. If necessary, the City will use NSP funds to write down the

loan amount that a private lender provides. If the homebuyer needs to buy the home but can only afford the payments on a mortgage less than the

purchase price, the City may provide NSP assistance to the lender to write down the difference.

(4) Describe housing rehabilitation standards that will apply to NSP assisted activities.

Response:

The City of Margate will utilize the housing rehabilitation standards established for the City's Home Rehabilitation Program, and will ensure that all

rehabilitated properties meet the minimum requirements of the Florida Building Code and the City of Margate Building Department. The City will

incorporate modern, green building and energy-efficiency improvement standards, whenever feasible, to provide for longer-term sustainability.

Low Income Targeting:

D. LOW INCOME TARGETING

Identify the estimated amount of funds appropriated or otherwise made available under the NSP to be used to purchase and redevelop abandoned or

foreclosed upon homes or residential properties for housing individuals or families whose incomes do not exceed 50 percent of area median income:

Note: At least 25% of funds must be used for housing individuals and families whose incomes do not exceed 50 percent of area median income.

Response:

The City of Margate will be allocating \$563,639.00 for the 25% set aside.

Acquisition and Relocation:

E. ACQUISITIONS & RELOCATION

Indicate whether grantee intends to demolish or convert any low- and moderate-income dwelling units (i.e., ? 80% of area median income). If so, include:

The number of low- and moderate-income dwelling units (i.e., ? 80% of area median income) reasonably expected to be demolished or converted as a direct result of NSP-assisted activities.

The number of NSP affordable housing units made available to low-, moderate-, and middle-income households (i.e., ? 120% of area median income)

reasonably expected to be produced by activity and income level as provided for in DRGR, by each NSP activity providing such housing (including a

proposed time schedule for commencement and completion).

The number of dwelling units reasonably expected to be made available for households whose income does not exceed 50 percent of area median

income.
