NSP

Narratives

Areas of Greatest Need:

Within the last 24 months there has been a dramatic rise in the number of foreclosed residential properties in the City of San Bernardino. In fact, the City of San Bernardino only ranked behind the City of Stockton as the city with the highest foreclosure rate in California. Also, there have been approximately 3,700 foreclosed residential properties in the City of San Bernardino from January 1, 2008 to March 31, 2010. This represent approximately 10% of the City's housing stock. Such a high level of foreclosures has the potential to destabilize communities. There is added and slum and blight, vandalism, homelessness, and other types of damage to the fabric of the community as a result of a high foreclosure rate.

Distribution and and Uses of Funds:

The City of San Bernardino, needs funding from an outside source, such as the NSP Program, in order to refurbish and re-sell some of the many foreclosed homes currently on the market. This will help to stabilize property market values, as there will be fewer foreclosed homes on the market. Also, funding is needed to provide affordable, rental housing for those who can no longer afford to live in their own house. This would help to reduct the number of homeless in the community. Finally, funds are needed to clean up some of the slum and blight created whenever there are a large number of foreclosed and abandoned houses in the community.

Definitions and Descriptions:

Low Income Targeting:

Project E (Activity #NSP 005) targets househods at 50% of Area Median Income (LH25).

Acquisition and Relocation:
