NSP

Plan Description:

The foreclosure crisis began in 2007 with the collapse of subprime mortgages throughout the United States. California is one of the top three states hit hardest by this devastating event with Santa Ana being the hardest impacted in Orange County. In addition to the foreclosures, issues stemming from property abandonment by homeowners include blight due little or no maintenance, and vandalism.

Recovery Needs:

At the time of the enactment of the Housing and Economic Recovery Act of 2008, the City of Santa Ana had approximately 1,500 foreclosures, 1,100 Notices of Default, and 1,700 active subprime loans throughout the city. The housing crisis has affected all sectors of our community. The City is focused on stabilizing its neighborhoods by focusing its acquisition and rehabilitation activities in distressed neighborhoods.

Progress Toward Activity Type Targets

Progress Toward National Objective Targets

Overall Progress Narrative:

During this quarter the City has been continuing to implement all NSP activities:

- Continued acquisition, rehabilitation, and resale of single family homes in the City's Priority Area. A total of 8 properties have been purchased and are being rehabilitated. Additionally, one home was being marketed on the MLS for resale.
- Continued acquisition, rehabilitation, and resale of condominiums and historic homes. A total of 7 properties have been purchased and are being rehabilitated. Additionally, one condominium was being marketed on the MLS for resale.
- Acquired a of 14-unit multifamily building for the City's Rental program for 50% AMI households.
- A total of 37 applications have been mailed for the Down Payment Assistance Program and one application has been received.

Activity Description:

This program will be operated by contracted intermediaries selected through a Request for Proposals process. These intermediaries will use NSP funds, or ideally other funds available to them, to acquire and rehabilitate foreclosed or abandoned condominium units and historically significant homes. Upon completion the homes will be marketed and sold to households with incomes at or below 120 percent of the area median. Sales prices will be established for both low- and moderate-income households, and in accordance with the methodology established by the California Health and Safety Code with modifications designed to increase their affordability. For homes offered for sale to low income households, the affordable sales price will be based on 30 percent of the monthly income of a household at 65 percent of area median. For homes offered for sale to moderate-and middle-income households, the sales price will be base on 35 percent of the monthly income of a household at 100 percent of area median. For those receiving such assistance, continued affordability will be assured through forty five year deed restrictions and promissory notes requiring repayment of the difference between the sales price and the fair market value. Additionally, the loans will carry 3 percent interest rates, which interest rate will be forgivable over the forty five years. Should these homes prove hard to sell, the intermediaries will be able to offer them to income qualified households on a lease to own basis. The City will insure that this activity benefits income qualified households by limiting eligibility to those with incomes at or below 120 percent of area median income. Given the significant upfront and long term costs associated with homeownership the City does not anticipate that this program will serve any very low-income households, and it will not deed restrict any homes purchased through this program to occupancy by very low-income households.

Location Description:

For reasons described in Section A of the City's Substantial Amendment, condominiums were excluded from the City's analysis of its Areas of Greatest Need. Additionally, historically significant homes are widely scattered, but are an important contributor to the City's cultural life. As a consequence the City will offer this program on a citywide basis to insure that both types of housing can be acquired and rehabilitated with NSP funds.

Activity Progress Narrative:

The City's intermediary, ANR, has been actively seeking foreclosed properties in the priority area through both the MLS and NCST. Through NCST, we have been offered a total of 52 properties this quarter. Of these, there are currently two condominiums properties under evaluation and three in escrow for acquisition. The City anticipates closing on these properties in late October and early November. Other properties were rejected because they did not fit the program goals. Currently, we have four properties under rehabilitation and one in the approval process to be sold to an eligible homebuyer. During rehabilitation, all homes are upgraded to contain green and energy efficient features. These features may include:

- insulation in walls, floors, and ceilings

- energy-efficient doors and windows
- tankless water heaters
- drip irrigation and drought resistant landscaping
- low VOC paint
- low-flow kitchen and bathroom fixtures
- low voltage exterior lighting
- Energy Star florescent interior lighting (possible removal of excessive lighting fixtures)
- Energy Star appliances
- caulking and weather stripping

| Match Contributed | \$0.00 | \$0.00 |
| Program Income Received | \$0.00 | \$0.00 |
| Program Income Drawdown | \$0.00 | \$0.00 |

Activity Description:

Through this activity the City will make no interest rate, down payment loans available to households at or below 120 percent of area median income. These loans will be deferred for thirty years. They will be due and payable at that time or such time that the home is sold. The maximum loan amount will be 10 percent of the sales price or \$40,000, whichever amount is lower. Borrowers will be required to prequalify for conventional first mortgage loans, and loan amounts will be restricted to the amount necessary to purchase the home. This program will be managed by City staff who will work directly with interested homebuyers and realtors. As demonstrated in Section A of the Substantial Amendment, abandoned and foreclosed upon homes are found in most of the City's census tracts. However, the City will insure targeting through its strategy of defining the top twenty of its census tracts in terms of their risk of abandonment or foreclosure, as its priority areas. The City will insure that this activity benefits income qualified households by limiting eligibility to those with incomes at or below 120 percent of area median income. Given the significant upfront and long term costs associated with homeownership the City does not anticipate that this program will serve any very low-income households, and it will not deed restrict any homes purchased through this program to occupancy by very low-income households.

Location Description:

NSP Priority Area

Activity Progress Narrative:

During this quarter, 37 applications were mailed to interested households and one was received. The program is being marketed through the City's website, local real estate agents, and neighborhood meetings. Staff has attended local homeownership seminars sponsored by Freddie Mac and Citi Mortgage. Each of these events was attended by 30-40 local real estate agents, loan officers, brokers, and representatives of the Hispanic & Asian communities. In addition, a presentation was made of all the City of Santa Ana's homeownership products for a local mortgage company, local realtors, and loan officers.

Staff anticipates continuing to market the program through community centers, email blasts, homebuyer fairs, faith-based organizations, housing non-profits, stadium marquees and local community leaders.

Activity Description:

The purpose of this program is to acquire properties suitable to be redeveloped as (a) public facilities or (b) new housing construction. Improvements are likely to be demolished if not suitable for rehabilitation. Properties acquired and redeveloped as parks or open space will be retained by the City and operated by the Department of Parks, Recreation and Community Service. Properties to be redeveloped by the Redevelopment Agency will be disposed of for residential or non-residential use under a land disposition and development agreement. The agreement will restrict the use of the property to meet NSP and CDBG eligible uses and a CDBG national objective.

Location Description:

The activity will be carried out in census tracts eligible as LMMA areas for NSP.

Activity Progress Narrative:

The City continues to identify and assess properties for this activity.

Activity Description:

The City will operate this program on a citywide basis through contracted intermediaries who will possess demonstrated capacity to acquire, rehabilitate, operate and maintain rental housing units restricted to very low-income tenants. NSP funds will be used in conjunction with other private and/or public funds for this purpose. The City will use this activity to meet the low-income housing requirement for those below 50 percent of area median income. Long term affordability will be insured by recordation of a City deed of trust, loan agreement and regulatory agreement stipulating the amount of the NSP loan and requiring a fifty five year period of affordability. Allowable rents will depend on project specifics but will need to be affordable to households between 30 percent and 50 percent of area median income.

Location Description:

Based on its current Consolidated Five Year Plan and its draft Housing Element, the City of Santa Ana has determined that there is a citywide shortage of rental housing available and affordable to households at or below 50 percent of area median income. As a consequence the City will operate this program on a citywide basis.

Activity Progress Narrative:

Orange Housing Development Corp (OHDC) and C&C Development have acquired a 14-unit building. They anticipate beginning to rehabilitate the units in the next quarter.
