Summary of Distribution and Uses of NSP Funds:

NSP 3 funding is to be used for the Acquisition and Rehabilitation of Foreclosed, Vacant properties located in the designated Area of Greatest Need. Upon completion, the houses will be made available for sale to those income eligible households at 120% or less of the Area Median Income.

LMMH (75%)	\$ 808,557.00
LIH25 (25%)	\$ 310,984.00
Administration	\$ 124,393.00
Total Grant	\$ 1,243,934.00

How Fund Use Addresses Market Conditions:

The City of Hammond utilized various data sources to determine the areas of greatest need. According to RealtyTrac data (2009) Indiana's foreclosure rate ranked No. 11 out of the 50 states for all of 2008, with 1.67 percent of all housing units receiving a foreclosure filing during the year. Lake County ranks second in the state in the number of foreclosed properties in December 2010 (323 foreclosures) and in December 2010, Hammond ranks first of the three large older industrial cities and second overall of all cities and towns in Lake County (RealtyTrac data). In doing a geographical comparison, the following graphically demonstrates the high continuing rate of foreclosure activity in the City of Hammond's zip code 46324, (which is where the targeted neighborhoods the city is requesting NSP3 funding). in comparison with the state, county and city averages. According to data collected from the county's Sheriff's office and geo-coded by the City of Hammond's Mayor's Housing Task Force, during calendar year 2010, the number of foreclosures in the City of Hammond totaled 717. (Note: The Sheriff's Foreclosure Sales Listings were provided by the Lake County Sheriff's Office. Based on that data the district with the highest area of foreclosure activity is the Fourth District, the District in which the target area of greatest need is located.) The following is a list of year-to-date (January 2010 - December 2010) list of foreclosures by the City of Hammond Common Council District: The targeted area the City selected, received 647 mortgages from 2004 through 2007. The total number of housing units in the targeted area is 1836; a certain number of these housing units may be rental. During the 2004-07, three year period, this targeted neighborhood had over one third of it's housing units or 35%, receive new mortgages. Of these new mortgages 38.82 % (261) are described as high cost mortgages. This condition may further support the high foreclosure rate in the targeted area. Homes that are 90 or more days delinquent total 11.28% or approximately 207 homes. In the past year there have been 48 foreclosure starts in the targeted area. The Area of Greatest Need is located in City of Hammond's 4th Council District as indicated by the "blocks" identified in the NSP3 Mapping Tool Detail, pages 2 and 3, Blocks Comprising Target Neighborhood. The area is physically bounded by 169th Street on the North, Calumet Avenue on the East, and Harrison Avenue on the West through 173rd Street on the South, then from 173rd Street on the North to River Drive on the South, Harrison Avenue on the West, and Columbia Avenue on the East. Included in the selection criteria for determining the target area is the potential resale of acquired and rehabilitated properties. The targeted area and its immediate vicinity have accounted for 47.69% of the total residential properties sold in Hammond for the years 2008, 2009, and 2010. Using 2008 as the base year, that area is the only sales market area in Hammond that has reflected an increase in "Days On Market (DOM)." Whereas other sales market areas in Hammond reflect slightly decreased DOMs, the sales market area in which the targeted area is located has shown an increase of 9.35% (10 days) in DOM. Over the same 3 year period, that sales market area has shown an 8.55% decrease in sales price or \$6,84

How Fund Use Addresses Market Conditions:

4 per unit. However, what continues to support this area as the prime basis for a successful program is that it continues to attract a comparatively greater proportion of new homebuyers in Hammond. This program will have a greater impact by rehabilitating 11 foreclosed, abandoned or vacant properties for that reason. This will reinforce to the prospective home buyers that the neighborhoods in this designated area continue to be viable and an attractive area in which to purchase an

Ensuring Continued Affordability:

The City of Hammond will ensure continued affordability for NSP 3-assisted housing by adopting the HOME program standards at 24 CFR 92.252 (a), (c), (e), and (f) for rental units and 92.254 for homeownership units.

The affordability period for NSP 3-assisted acquisition or acquisition/rehab of rental and homeownership units will, at a minimum, meet the HOME standard:

Per-unit NSP 3 Assistance	Min. Affordability Period
up to \$15,000	5 years
\$15,000-\$40,000	10 years
above \$40,000	15 years

Definition of Blighted Structure:

Blighted Structure:

A structure will be considered blighted when it meets the following Indiana Unsafe Buildings and Unsafe Premises condition as defined in Indiana Statue condition:

IC 36-7-9-4 Unsafe buildings and unsafe premises described Sec. 4.

(a) For purposes of this chapter, a building or structure, or any part of a building or structure, that is:

- (1) in an impaired structural condition that makes it unsafe to a person or property;
 - (2) a fire hazard;
 - (3) a hazard to the public health;
 - (4) a public nuisance;
 - (5) dangerous to a person or property because of a violation of a statute or ordinance concerning building condition or maintenance; or
 - (6) vacant and not maintained in a manner that would allow human habitation, occupancy, or use under the requirements of a statute or an ordinance;
- are considered unsafe premises.

(b) For purposes of this chapter:

- (1) an unsafe building; and
 - (2) the tract of real property on which the unsafe building is located;
- are considered unsafe premises.

(c) For purposes of this chapter, a tract of real property that does not contain a building or structure, not including land used for production agriculture, is considered an unsafe premises if the tract of real property is:

- (1) a fire hazard;
- (2) a hazard to public health;
- (3) a public nuisance; or
- (4) dangerous to a person or property because of a violation of a statute or an ordinance.

Definition of Affordable Rents:

For the purposes of the NSP program, the City will utilize the definition of High-HOME rents from the HOME Investment Partnerships program: Efficiency, \$537; 1 BR, \$669; 2 BR, \$816; 3 BR, \$975; 4 BR, \$1,006; 5 BR, \$1157; 6 BR, \$1,308

Housing Rehabilitation/New Construction Standards:

All rehabilitation under the NSP 3 program will utilize the same rehabilitation standards used for its HOME-funded Owner-Occupied Rehabilitation Program. These standards are based upon local housing codes and comply with the 2003 International Residential Code, with Indiana Amendments, and specifically Appendix J (Existing Buildings and Structures). Structures with more than two units must comply with the IBC with Indiana Amendments In addition, effective May 6,2010, Indiana Energy Conservation Code 2010 (ASHRAE 90.1, 2007 edition, as amended) where applicable. All gut rehabilitation or new construction (as defined by HUD) of residential buildings up to three stories will be designed to meet the standard for Energy Star Qualified New Homes. Other rehabilitation will meet these standards to the "extent applicable" to the rehabilitation work undertaken, e.g., replace older obsolete products and appliances (such as windows, doors, lighting, hot water heaters, furnaces, boilers, air conditioning units, refrigerators, stoves, clothes washers and dryers, and dishwashers) with Energy Star-46 labeled products.

Vicinity Hiring:

Vicinity Hiring. The jurisdiction certifies that it will, to the maximum extent feasible, provide for hiring of employees that reside in the vicinity of all NSP3 funded projects or contract with small businesses that are owned and operated by persons residing in the vicinity of NSP3 projects. The City of Hammond will make attempts to see that persons and/or companies from the NSP 3 target areas are engaged and/or hired. Given the target area is primarily residential, this may present some challenges to hire businesses specifically in the targeted area. But because much of our community has substantial number of low to moderate income census tracts corresponding to its residents, if qualified residents are available and new hires are being sought we believe employment opportunities will develop. The City of Hammond has long defined the hiring preference "vicinity" for the CDBG program to be all of Hammond. It will use this same definition of "vicinity" for NSP 3 as a preference. The City will detail in advertisements for contractor, and in construction contracts, the requirement that contractors must make a "best faith effort" to meet Section 3 goals and standards when hiring new employees for NSP 3 projects. Quarterly reports will be maintained by the City to determine as to whether Section 3 and Vicinity Hiring goals are achieved, and by whom.

The City has initiated the outline of a Work Force Program which will provide OSHA Safe Work Place Practices training to made available to City of Hammond residents. Names of participants completing the training will be made available to all contractors for NSP related projects and activities.

Procedures for Preferences for Affordable Rental Dev.:

Rental Preference:

At this time with this application, the City of Hammond does not intend to utilize a rental program for the properties being acquired in the target area. The Hammond Housing Authority has undertaken a reconstruction and rehabilitation of existing structures and currently offers in excess of 390 rental units in a complex immediately adjoining the targeted area. In addition, Hammond Housing Authority also owns, maintains, and manages an additional site complex in the City of Hammond with 199 rental units located approximately 3 miles North of the targeted area. Historically The City of Hammond has stated that an estimated 65% of its 38,000 housing units were owner occupied, with the remainder being rental. Typically cities and towns to the South of Hammond have owner occupancy rates of an estimated 75%. With NSP1 and its Down Payment Assistance Program, the City of Hammond has noted an increased demand for home ownership. In 2 years of providing down payment assistance, the City has assisted an estimated 200 households with home ownership. The increased demand for home ownership may partially attributed to the City's College Bound Scholarship Program. The Program basically allows the children of Hammond residents (home owners) to obtain

college tuition for 4 years at an annual amount equal to that of a State University. The Program does have conditions of eligibility relating to students' Grade Point Averages in High School and the college they choose to attend.

Progress towards LH25 Requirement	\$623,483.50	\$310,545.09

Overall Progress Narrative:

The Area of Greatest Need was in City of Hammond's 4th Council District as indicated by the "blocks" identified in the NSP3 Mapping Tool Detail, pages 2 and 3, Blocks Comprising Target Neighborhood. Because there has been no movement in the original target area, the NSP3 action plan will be revised to request moving the remaining funds to another area of the city.
