How Fund Use Addresses Market Conditions:

Areas of Greatest Need

The City of Savannah used the NSP 3 Mapping Tool and information to determine the areas of greatest need. The data associated with the mapping tool are submitted in the appendix of this amendment. According to the Mapping tool, the impact scores are as follows:

* Savannah Gardens: 4

* Feiler Park/ Tatemville: 1

* Summerside: 0

All areas would meet or exceed the number of units needed to be built to make an impact in their respective neighborhoods. All areas also meet the threshold score set by HUD to be eligible areas for the NSP 3 program. Determination of Areas of Greatest Need and Applicable Tiers

The Areas of Greatest Need were established by using the information from the NSP 3 Mapping system to determine the areas within the city that were eligible for the NSP3 program. Once staff found the areas eligible, current and proposed projects were reviewed to see if they would meet the eligibility for the program. The Savannah Gardens project was chosen due to its eligibility and the city's resolve to redevelop the property into a mixed-income development. Feiler Park/Tatemville and Summerside were chosen because of the availability of NSP 1 lots for development and they were eligible under NSP 3. The Feiler Park/Tatemville and Summerside neighborhoods will be used to meet our performance measures for our 25% set aside under the NSP 3 program. Due to difficulty in acquiring foreclosed homes in NSP 1, the City of Savannah has chosen to focus on developing infill housing in these neighborhoods that are eligible for the NSP 3 program.

Ensuring Continued Affordability:

Long-Term Affordability

Properties acquired and rehabilitated or constructed using NSP funds will have long term affordability requirements set forth for the HOME program. These requirements will be enforced through various legal documents including loan agreements, promissory notes, deeds and/or other forms of deed restrictions. They will also be enforced through monitoring performed by the City of Savannah. Long term affordability requirements for rental housing acquired, rehabilitated and/or constructed using NSP funds are shown in the table below. The City shall require that landlords provide the City with rent rolls and household income verifications each time a unit is rented to a new tenant during the affordability period.

Rental Housing Long Term Affordability Period

Activity	Avg. Per Unit NSP \$	Affordability Period
Rehabilitation or Acquisition of Existing Housing	<\$15,000/unit	5 Years
	\$15,000 - \$40,000/unit	10 years
	>\$40,000/unit	20

Ensuring Continued Affordability:

New Construction or Acquisition of New Housing

Any \$ Amount	20 Years
---------------	----------

Long term affordability requirements for housing acquired, rehabilitated and/or constructed and then sold to qualified home buyers using NSP funds are shown in the table below. The City shall verify that home buyers will not be paying more than 35% of household income toward their principal, interest, taxes and insurance (PITI) mortgage payments at the time the house is purchased. NSP funds that are not designated as development subsidies must be repaid to the City by the developer and/or homeowner if the house is sold during the affordability period. Additionally, deed restrictions shall be used to restrict the sale price of the house during the affordability period to the FHA 203(b) sale price limits in place at the time of sale.

Definition of Blighted Structure:

Blighted Structure

The City of Savannah has adopted the International Property Maintenance Code. Its definition of blighted structures, which shall include blighted property, is: Any structure or premises, which by reason of dilapidation, overcrowding, lack of ventilation, light or sanitary facilities, or any combination of these factors detrimental to safety, health, and morals.

Definition of Affordable Rents:

Affordable Rents

The City of Savannah considers "affordable rent" to be rent levels established for efficiency, 1-bedroom, 2-bedroom, 3-bedroom, and 4-bedroom dwelling units for the Section 8 rental program. The City also considers rents to be affordable when tenants with household incomes no greater than 120% of Area Median Income pay no more than 30% of their household income toward rent.

Housing Rehabilitation/New Construction Standards:

Housing Rehabilitation Standards

The City shall require that all housing rehabilitated with NSP funds meet the standards adopted by the City for its HOME program. This means that, at a minimum, all housing units must meet the Section 8 Housing Quality Standards and all work performed on a dwelling that requires a permit is permitted, inspected and approved by the Building Official's office in the Development Services Department. Additionally, whenever rehabilitation costs exceed \$40,000 per dwelling unit, the City shall require a Certificate of Occupancy be obtained from the Building Official's office in the Development Services Department upon completion of the work by the developer.

Vicinity Hiring:

Vicinity Hiring

The City of Savannah will provide for vicinity hiring to the maximum extent possible by partnering with Developers who will primarily use local contractors for redevelopment and demolition contracts.
