Preparing for Your
2012 Housing Inventory and Point-in-Time Counts Webinar

Biographies

<u>**Presenters:**</u>

William Snow, U.S. Department of Housing and Urban Development. William Snow was hired as a Presidential Management Fellow at HUD in 2010. Since joining HUD, Mr. Snow has worked closely to analyze HUD's homeless data sources to learn how to make data systems more efficient and to use the data to help stakeholders understand the nature of homelessness and the efforts of providers to prevent and end homelessness. Mr. Snow has desk officer responsibilities for the Portland and Buffalo Field Offices. Prior to coming to HUD, Mr. Snow worked at Abt Associates while earning his joint degree in law and public policy.

Tracy D'Alanno, Abt Associates. Tracy D'Alanno is an Associate with Abt Associates and has more than 20 years of experience in developing and implementing coordinated housing and homeless service delivery systems at the public and private level. Ms. D'Alanno recently joined Abt Associates after spending many years in state government specializing in intergovernmental cooperation, collaboration, and the development of partnerships with nonprofit organizations. Specific areas of expertise include the administration and management of HMIS and overseeing the administration of multiple housing programs. Ms. D'Alanno also has extensive experience in providing direction to providers, local governments, and state departments on the development and implementation of local and state homeless program models to address the needs of persons experiencing homelessness.

Lauren Dunton, Abt Associates. Lauren Dunton is a Senior Analyst with Abt Associates. A member of the HMIS Technical Assistance team for the past four years, she provides Point-in-Time (PIT) count technical assistance and develops PIT count training materials. She manages the data collection process for the Homelessness Pulse project and is also part of the Data Collection Team for the Annual Homeless Assessment Report (AHAR). In addition to these responsibilities, Ms. Dunton also works on a variety of affordable housing and homelessness projects and evaluations for Federal, state, and local governments.

Molly McEvilley, Abt Associates. Molly McEvilley joined Abt Associates as a Senior Analyst in February of 2011. Since joining Abt, she has been working on the next revision of the HMIS data standards, the VA HMIS Integration project, the SSVF Technical Assistance project, and the development of programming specifications for HUD reports. She is the Task Lead for the management of the Homeless Data Exchange (HDX) and the Housing Inventory Count (HIC) guidance and training. For nine years prior to that, she was involved with the development of a homegrown HMIS application as a Programmer/Analyst, Project Manager, Database Administrator, and Data Analyst, and as part of HUD's Technical Assistance team.

Resource Advisor:

Tom Albanese, Abt Associates. Tom Albanese provides consulting and technical assistance services as an Associate with Abt. Tom has provided planning, development, implementation, and management

support for housing and homeless programs since 1992. Tom is a lead developer of the CoC Check-up process and also presently provides technical assistance for HPRP program grantees, as well as technical support to HUD related to HEARTH implementation and HMIS data standards. Tom previously served as the Director of Programs and Planning for the Community Shelter Board (CSB) in Columbus, Ohio and was responsible for homeless and housing program planning, development, and technical assistance.
