

Requesting Rent Adjustments (09/22/16)

Under regular HUD Systems operations, Grantees would enter rent adjustments into iREMS. However, iREMS is currently unable to allow for edits in the contract processing fields for PRA contracts such that Grantees cannot enter the rent adjustments. We are working internally to correct these issues. Until these issues are corrected, HUD has to manually process the rent adjustments on the Grantee's behalf. Please submit your approved/executed rent schedule to the PRAContracts mailbox, identifying that this is an OCAF rent adjustment.
