

DRGR FACT SHEET: Release 7.13 New Home Screen

Background

With Release 7.13, DRGR now includes a new Home screen that serves as the landing page upon login and provides access to the following three features:

1. Enhanced “Update/News” section
2. New “My Action Items” (to-do list) for users
3. New “Managing Flags” link (see separate Flags Fact Sheet)

Enhanced Update/News section

Before Release 7.13, the Update/News section was only viewable once upon login and only supported one Update/News narrative. The following enhancements were made in Release 7.13:

- On the new Home screen, users can now access the Update/News section at any time by navigating back to the Home screen.
- The newest (primary) update will be featured on top, and older, but still relevant, updates/news will be featured in descending order.
- Updates/News narratives are truncated, but can be expanded by clicking on the  icon to read additional information on each Update/News narrative.

The screenshot displays the DRGR Home Screen. At the top, the title "Disaster Recovery Grant Reporting System (DRGR)" is shown. Below the title is a navigation menu with tabs for Home, Admin, Action Plans, Drawdown, QPR, Reports, and Grants. The Home tab is selected. On the left side, there is a sidebar with sections for "Login ID:T027GA Role:Grantee Admin", "DRGR" (with links to Home, Admin, Action Plans, Drawdown, QPR, Grants, and Flags), "Utilities" (with links to Print Page, Profile, Subscriptions, Help, FAQ, Logout, and Reports), and "Links". The main content area features a "Welcome to the Disaster Recovery Grant Reporting System" message with a "Help?" link. Below this is a "DRGR Update (04/25/2017)" section, which is highlighted with a red box. The update text reads "R7.13 deployed on May 15, 2017" followed by an expand icon. To the right of the update is a "MY ACTION ITEMS" section showing "Grantee Draw Approvals (1)". At the bottom of the main content area, there are two warning messages: one about Federal Information security and another about session timeout.

New My Action Items section

The new Home screen displays pending “My Action Items” (to-do list) that are specific to each user’s role (e.g. grantee drawdown approver or HUD user responsible for new user request or Action Plan/QPR approvals). These are meant to help both grantee and HUD users manage their DRGR tasks in a timely manner. Tasks will automatically clear from the list as they are completed.

All users in an organization with the same user role/permission will see the same Action Items specific to that role. For example, once a voucher is created, all grantee users with the drawdown approval role will see a task to approve the voucher. The task will clear from the Task List of all users with the drawdown approval role once any user completes the task (e.g. the voucher is approved).

As shown in the screenshot below, the Action Item is followed by a number in parentheses that tells how many Action Items are included in that Action Item category.

DRGR Update (04/25/2017)
R7.13 deployed on May 15, 2017

MY ACTION ITEMS

➤ Grantee Draw Approvals (1)

Warning! Misuse of Federal Information at this Web site falls under the provisions of Title 18, United States Code, section 1030. This law specifies penalties for exceeding authorized access, alteration, damage, or destruction of information residing on Federal computers.

Warning! Your working session will time out after 20 minutes if there is not any interaction with the application server. If JavaScript is enabled and all pop up blockers are turned off the system will provide a warning and ask you if you need more time 5 minutes prior to the expiration of the working session. Clicking 'Yes' will provide an additional 20 minutes.

Clicking on the ➤ icon will display additional detail for each pending Action Item category (see screenshot below), such as the Grant Number and the number of days the task has been pending.

MY ACTION ITEMS

➤ Grantee Draw Approvals (1)

Grantee	Grant	Voucher	Submission Date	Days Pending
New Jersey	B-12-DT-34-0001	351237	04/25/2017	22

The following chart shows which Task Items will displayed on the DRGR Home page based on user roles. Additional tasks can be added/edited/removed by HUD at any time.

Component	Data	DRGR User Role							
		HUD				Grantee
