Overview

The following are highlights of defects that have been corrected and system modifications that are available in DRGR Release 8.1.1:

Functionality	Affected Users	Summary
Action Plans	All Users	Some action plans were not able to be downloaded. Downloading action plan for these grants was displaying a "System error" message.
Action Plans, Activity	All Users	When adding or editing activities the system was not correctly validating the activity budget and mid threshold budget.
Appropriation	Super Users	"TA Appropriation" field on the appropriation set-up page previously displayed appropriation description, it has been modified to display appropriation code.
Compliance	All Users	Users were unable to edit concerns on the monitoring page. The users were displayed "unexpected error" message.
Compliance	All Users	Users were unable to add and edit monitoring pages. The users were displayed "An error has occurred. Please try again. (Code globalException)" message when a user attempts to add a new Event.
Flags	HUD Users	Users were getting "System Error" message when entering activity comments on review action plan pages.
Grants	Super Users	HUD Users were not able to add backup CPD representatives to a grant.
MicroStrategy	HUD Users	Improved the performance of the Out of Balance Report.
Projects	Super Users	HUD Super-users were not able to edit projects for technical assistance awards.
Projects	All Users	The project description field now restricts the user from entering more than 200 characters to prevent the user from losing the changes made to the project.

Functionality	Affected Users	Summary
Projects	HUD Users	TA HUD users were not able to Add Projects from the Manage Action Plan Page
Review Staff Types	HUD Users	HUD field office users no longer receive a "System Error" message in the Review Staff Types Page.
Upload	All Users	Users were not able to upload drawdowns.
User Certification	All Users	Users were not getting certified on the certification screen. Users were given a success message, but certification was not saved in the system.
User Certification	HUD Users	Users were not able to certify users that had Grantee and HUD user profiles.
User Request	HUD Admins	Edit Users Page "Cancel" button is now redirecting users to the correct page.
User Request	HUD Admins	Some user profiles were not successfully modified on the User Edit Change Request Page. The user was displayed "null" message on update.
User Request	All Users	On User Edit Change Request, the requested user was not able to access the system until the user change request was approved. The issue has been resolved and the user can now access DRGR once again when a change request is created and is in "pending approval" status.
User Request	HQ Admin	HUD Field office users were receiving a "Null pointer exception" message when adding a grantee profile from the Admin screen.
User Request	All Users	Grantee and HUD users are now restricted from making changes to their own profiles from the My Profile>Manage My Account.
User Request	All Users	Restored the ability of Admin users and Field Office users to add multiple profiles.
User Request	All Users	Resolved an error related to adding one profile at a time.
User Request	All Users	Resolved an issue preventing users from making request to add new profiles to their account.
Voucher	All Users	"Download All Supporting Documents" function on a voucher screen was giving a "System Error" message. It has been fixed to allow download of all documents as a compressed file.

Functionality	Affected Users	Summary
Work Plan	All Users	The system was reducing “Scope” description on work plans to 2000 characters even though system allowed 4000 characters.
