

DRGR Data Upload Fact Sheet

Disaster Recovery Grant Reporting (DRGR) System Action Items Guidance

Please submit all questions about this guidance to the DRGR Ask-A-Question (AAQ)
<https://www.hudexchange.info/program-support/my-question/>

Overview

This Fact Sheet supplements the Data Upload section of the DRGR System User Manual and lists data upload types as well as the data that DRGR Users can upload with each upload type, tips for completing data fields, and a list of possible errors. The following topics will be covered:

- Using Regular and Batch (PowerUser) Upload Types
- Upload Types and Data Fields
- Template and Sample Values
- Error Messages

The upload types covered in this Fact Sheet are arranged into two groups: regular data uploads and batch data uploads.

- **Regular Data Uploads:** Regular data uploads, which were introduced in DRGR Release 7.7, are uploads allowed within specific modules of the DRGR System. As such, these uploads are required to reference the related module (or “uploadfamily”).
- **Batch (PowerUser) Uploads:** Batch(PowerUser) uploads are available for authorized DRGR users, and were introduced in DRGR Release 7.9. These uploads allow authorized grantee users and HUD users to upload different upload types within one file. In general, authorized grantee users are the Grantee Administrators, and authorized HUD users are the CPD Representatives, HUD manager, Super Users, and HUD HQ Administrators. In some instances, the User must have additional privileges to complete an upload. For example, only users with the Drawdown Approve role can use the “VoucherApproveRequest” upload type.

Both regular and Batch (PowerUser) uploads require users to upload data by upload type (e.g. performance measure, addresses, beneficiaries, etc.), and each upload must include the appropriate field names. Upload types and required field names by upload type are included within this Factsheet.

Using Regular and Batch (PowerUser) Upload Types

Upload templates for grantee users, including technical assistance providers, are available and can be found at:

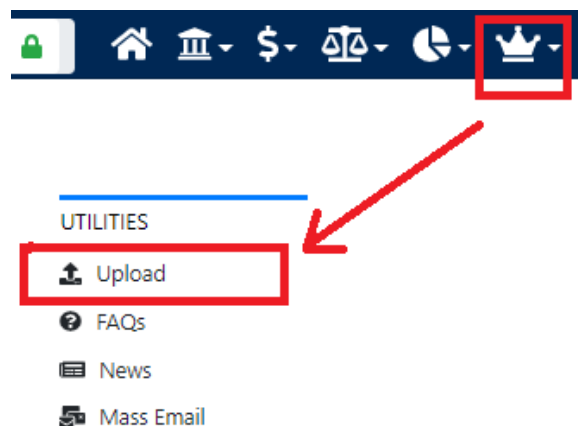

<https://www.hudexchange.info/resource/3703/drgr-data-upload-templates/>

Alternatively, users can access the template from the DRGR Data Upload page in DRGR.

REMINDER: ALL UPLOADS MUST BE FROM EXCEL FILES SAVED AS CSV FILES.

Also note that Batch (PowerUser) data uploads are located under the Administration module. See Figure 1 below.

Figure 1: Upload Batch (PowerUser) Uploads in the Administration Module

The basic steps for a Batch (PowerUser) upload are highlighted below and are the same as regular uploads. See Figure 2 below.

1. Click “Batch” under Upload Type,
2. Click “Choose File” and select the completed data upload template that will be uploaded from your computer.
3. Click “Upload” to upload the completed template.

See the Date Upload section of the DRGR System User Manual for additional information on completing and troubleshooting uploads.

Figure 2: Data Upload Steps

Upload Types and Data Fields

The first table below shows the specific regular data upload types, which can be done by anyone with regular user rights. The second table shows the Batch (PowerUser) data upload types, which provide the capability for batch uploading, but are only available to authorized DRGR users.

Template and Sample Values

Some data upload template fields require exact text to be entered (e.g. National Objective: Low/Mod), while others can be generated by the grantee (e.g. Activity #). Entering exact text typically corresponds to the dropdown menus or radio buttons in DRGR, whereas other entries are at the grantee's discretion. Grantees can find "Crosswalks" to determine which entries are required and the corresponding entries at:

<https://www.hudexchange.info/resource/3703/drgr-data-upload-templates/>.

Using the Add Activity template as an example, the template contains the following column headers. The table below shows whether or not the grantee must select a pre-determined entry or whether the entry can be generated by the grantee.

Column Heading	Generated by Grantee	Possible Grantee Entries
Grantee Activity #	Yes	Can be any entry subject to character limits
Activity Title	Yes	Can be any entry subject to character limits
Activity Type	No	Must enter an exact activity type matching a selection from the dropdown menu in DRGR (e.g. "Construction of new housing")
National Objective	No	Must enter an exact national objective matching a selection from the dropdown menu in DRGR (e.g. "Low/Mod")
Project Number	Yes	Must match an existing Project already in DRGR
Budget	Yes	Can be any value provided the Project Budget is sufficient
Projected Start Date	Yes	Can be any value in the following format: MM/DD/YYYY
Projected End Date	Yes	Can be any value in the following format: MM/DD/YYYY
Activity Status	No	Must enter an exact activity status matching a selection from the dropdown menu in DRGR (e.g. "Completed")
Environmental Assessment	No	Must enter an exact environmental status matching a selection from the dropdown menu in DRGR (e.g. "UNDERWAY")
Responsible Org Name	Yes	Must match an existing Responsible Organization name already in DRGR
Location Description	Yes	Can be any entry subject to character limits
Activity Description	Yes	Can be any entry subject to character limits
Benefit Type	No	Must enter an exact benefit type matching a selection from the dropdown menu in DRGR (e.g. "Area – Census")

Column Heading	Generated by Grantee	Possible Grantee Entries
Housing Unit	No	Must enter an exact benefit type matching a selection from the dropdown menu in DRGR (e.g. "HU - SF only")
TAPProvider		Must match an existing TA Provider already in DRGR
StaffRateType		Must enter an exact activity type matching a selection from the dropdown menu in DRGR
EffectiveDate		Can be any value in the following format: MM/DD/YYYY
BaseRate		Can be any dollar amount in the following format: 999.99
OverheadRate		Can be any dollar amount in the following format: 999.99
GeneralAdminRate		Can be any dollar amount in the following format: 999.99
FringeRate		Can be any dollar amount in the following format: 999.99
TotalRate		Can be any dollar amount in the following format: 999.99
RateType		Must match an existing Rate Type already in DRGR
OccupationalType		Must match an existing Occupational Type already in DRGR
Comments		Can be any entry subject to character limits
ResponsibleOrgName		Must enter an exact Responsible Organization Name matching a selection from the dropdown menu in DRGR
StaffTitle		Can be any entry subject to character limits
StaffFirstName		Can be any entry subject to character limits
StaffMiddleName		Can be any entry subject to character limits
StaffLastName		Can be any entry subject to character limits
NewStaffTitle		Can be any entry subject to character limits
NewStaffFirstName		Can be any entry subject to character limits
NewStaffMiddleName		Can be any entry subject to character limits
NewStaffLastName		Can be any entry subject to character limits
NewResponsibleOrgName		Must enter an exact Responsible Organization Name matching a selection from the dropdown menu in DRGR
Grant#		Must enter an exact Grant # matching a selection from the dropdown menu in DRGR
WorkPlan#		Can be any entry subject to character limits
OldWorkPlan#, NewWorkPlan#		Must match an existing Work plan already in DRGR
WorkplanType		Must match an existing work plan type already in DRGR
WorkplanStatus		Must enter an exact work plan status matching a selection from the dropdown menu in DRGR

Column Heading	Generated by Grantee	Possible Grantee Entries
InvoicePeriod		Must match an existing Work plan invoice period already in DRGR (Example: Monthly)
Scope		Can be any entry subject to character limits
StartDate		Can be any value in the following format: MM/DD/YYYY
EndDate		Can be any value in the following format: MM/DD/YYYY
CloseDate		Can be any value in the following format: MM/DD/YYYY
OriginalBudget		Can be any value provided the Project Budget is sufficient
ProposedBudget		Can be any value provided the Project Budget is sufficient
DefaultTaskName		Can be any entry subject to character limits
DefaultTaskEstimatedHours		Can be any number in the following format: 99999
DefaultTaskNarrative		Can be any entry subject to character limits
ProposedStaffBudget		Can be any value provided the Project Budget is sufficient
AssociatedWorkPlan#		Must match an existing Work plan already in DRGR
BLI (BudgetLineItem)		Must match an existing BLI already in DRGR (Example: OTHER, REVISED FUND or TRAVEL)
Description		Can be any entry subject to character limits
StartDate		Can be any value in the following format: MM/DD/YYYY
EndDate		Can be any value in the following format: MM/DD/YYYY
Cost		Can be any dollar amount in the following format: 999.99
Milestone		Can be any entry subject to character limits
ExpectedDate		Can be any value in the following format: MM/DD/YYYY
