Validate Responsible Organizations

Release 7.9

U.S. Department of Housing and Urban Development
April 2014

Validate Responsible Organizations against System for Award Management (SAM)

Each activity listed in DRGR must list the organization directly responsible for administering the activity. If a grantee directly administers an activity through their staff or contractors, the grantee should be listed as the responsible organization. In some cases, a grantee may use an agreement, such as a subrecipient agreement, to provide funds to another organization to complete an activity. In these scenarios, the grantee also transfers responsibility for completing the activity and meeting applicable federal requirements. In these cases, the entity receiving the funding must be identified in DRGR as the primary responsible organization.

In support for improved management of the Responsible Organizations in the system the Grantees can now validate if the Responsible Organizations are registered in System for Award Management (previously Central Contractor Registry). All agencies doing business with Federal Government must be registered in SAM. For more information on SAM please go to <https://www.sam.gov>.

Disaster Response String:

The possible Disaster Response Serviced Area	*CCR Disaster Response explanation:
ANY - Any area	CCR Disaster Response contains various CCR values that are further defined as noted below.
STA - State	There will always be a Disaster Response counter field for the number of Disaster Responses in each record and an additional field for each Disaster Response location set the profile has.
CTY - County	The first three positions of a Disaster Response represent an area serviced code, followed by an area code. State area codes are two positions, County area codes are five positions and Metropolitan Service Area area codes are four positions. An area serviced code of "ANY" will not be followed by an area code. Reference "CCR Extract Support Files" at http://www.ccr.gov/ccrexttracts.aspx for a complete list of possible Disaster Response codes. The entire field of code, numbers, and delimiters may reach 70 characters as shown below.
MSA - Metropolitan Service Area	
	Breakdown of the example Disaster Response portion shown in the example below:
	. . . "0003","CTYAL058.MSA1000.STAAL ". . .
	0003= Three occurrences
	CTY = County code
	AL058 = Saint Clair (Per ST_County.csv)
	MSA = Metropolitan Service Area code
	1000 = Birmingham, AL (Per MSA_List.csv)
	STA = State code
	AL = Alabama (Per STATE_List.csv)
