

DRGR Public Action Plan, Action Plan, Performance Report, and Work Plan Validations

Disaster Recovery Grant Reporting (DRGR) System Release 8.6 Fact Sheet

Please submit all questions about this Fact Sheet to the DRGR Ask-A-Question (AAQ) <https://www.hudexchange.info/program-support/my-question/>

Overview

With DRGR Release 8.6, Grantee and TA Provider users are now able to validate data entered into applicable fields of the Public Action Plan, Action Plan, Performance Report, and Work Plan (applicable for TA Provider users) prior to submission for review. The system will perform the validation check when the user selects the “Validate...” or “Submit...” links on applicable module screens (*Manage Action Plan, Manage Performance Report, and Manage Work Plan* screens) as highlighted below and display applicable validation data as a “Warning” or “Error.”

- Items displayed as a “**Warning**” will not restrict submission of the applicable plan or report, but grantees are recommended to review the data to ensure its accuracy.
- Items displayed as an “**Error**” will restrict the submission of the applicable plan or report until the data has been corrected.

Configured Validations

Please see [DRGR Validations Guidance Document](#) available on the HUD Exchange for a complete list of configured validations and their DRGR incorporation status. Screenshots below provide an example of how “Error,” “Warning,” and “Validation Success” messages are displayed in the system.

Note: Users should review detailed “Error” and “Warning” messages displayed prior to submission to determine information for resolving validation (errors or warnings) triggered.

“Error” Message

Disaster Recovery Grant Reporting System | P-21-LA-22-LDZ1

Errors Found! The following issues were found by the automated data validation checks and must be resolved prior to next submission

- Ensure applicable activities include a projection of “# of elevated structures”. If none to project, enter “0”: Elevation 123
- Ensure applicable activities include a projection of “# of substantially rehabilitated units”. If none to project, enter “0”: Elevation 123
