Introduction

To ensure that HUD has complete, accurate, and timely information on grantee performance, the CDBG program is issuing the following guidance for reporting accomplishment data in IDIS. HUD requires reliable, comprehensive information regarding program performance to ensure accountability on the use of CDBG funds. HUD must comply with the Government Performance and Results Act of 1993 and the performance management changes brought about by the Government Performance Modernization Act of 2010, fulfill reporting requirements for Congress and other stakeholders, measure progress made in meeting Agency Priority Goals, monitor grantee performance, and evaluate overall program results. In addition, grantees are subject to the full CDBG regulations regarding recordkeeping, listed at 24 CFR 570.490 (States) and 570.506 (Entitlements). HUD must be able to measure the contributions the CDBG program makes toward meeting the needs of low- and moderate-income citizens across the country and be able to account for the expenditures of each and every CDBG activity, focusing on achieving the primary goal of the program to serve low and moderate income persons. This guidance is intended to assist grantees in providing information needed for HUD to meet these requirements.

Accurate and Complete Reporting is Required

Grantees are required to report all accomplishments achieved for each activity in a program year, excluding planning and administration activities (matrix codes 20, and 21A-J) for States and Entitlements, but including planning-only activities for State grantees (matrix code 20A). Complete information must be reported for each activity. These data are required to demonstrate national objective compliance and to account for the use of CDBG funds. The data required for each activity are dependent on the activity's matrix code and national objective. The matrix code identifies the eligible use of an activity and is required for each activity in IDIS. Each activity, except for planning and administration activities, must also meet a national objective to either benefit low- and moderate income persons, aid in the prevention or elimination of slums or blight, or meet an urgent need. Definitions of CDBG matrix codes and national objectives appear in Appendices A and B, respectively.

Direct benefit activities, those with a national objective of LMC*, LMH*, and LMJ*, generally require the following accomplishment data:

- Race/ethnicity of beneficiaries
- Income level of beneficiaries
- Number of jobs created and retained, for LMJ activities
- Leveraging
- Performance measures

For LMA* activities information on the service area must be reported by either using HUD Low- and Moderate-Income Summary data (LMISD) or data obtained in a survey. If the grantee is using data from a survey, the grantee must enter the total LM universe population, the low-/moderate-income population and the percentage of low- to moderate-income persons. Data required for LMA* activities also includes:

- Leveraging
- Performance measures

For activities with a national objective of SB* and URG, grantees must report:

- Actual units
- Designation of slum blight area, for SBA activities
- Leveraging
- Performance measures

*Denotes all national objective criteria options under a general national objective category.

Timely Reporting is Required

When accomplishment data are not entered on a regular basis, the CDBG program does not have up-to-date information on what has been achieved. This results in undercounting the program's accomplishments and is due, in part, to the infrequent entry of data in IDIS by some grantees.

Report as frequently as possible.

- Reporting as benefits are realized is the ideal
- Quarterly reporting is recommended
- Annual reporting is required

Grantees should understand the data needs upfront for each activity. If the grantee is carrying out the activity itself, it should provide the manager of that activity with complete information on what data are needed and when those data are due. When activities are being carried out by subrecipients or financial assistance has been provided to for-profit businesses, agreements should contain complete information on what data are to be collected and when those data need to be submitted. Penalties should be attached when data are not submitted as designated in an agreement.

The CDBG regulations regarding recordkeeping are listed at 24 CFR 570.490 (States) and 570.506 (Entitlements).

This guidance takes grantees through the CDBG activity screens and highlights those data elements that are key for reporting accomplishments for the CDBG program. Emphasis is given to data that are commonly entered incorrectly in IDIS and to programmatic reporting requirements.

Data Impacting Accomplishment Reporting

Add Activity Screen

Guidance is provided below to assist grantees in selecting the most appropriate eligible activity category and assigning the correct matrix code to that activity. Matrix codes are key determinants, along with national objectives, in accomplishment reporting requirements. Common incorrect uses of matrix codes are highlighted. Guidance is also provided on the activity name and description fields.

Field	Description
Activity Name	<p>Enter a name for the activity.</p> <p><i>Important Guidance: Don't Include Personal Information in Activity Name</i></p> <p>Because this field appears on numerous IDIS reports, do not include any personal information (such as beneficiary name) as part of the Activity Name. This error is especially common in the names of housing rehab activities.</p>
Activity Category (Matrix Code)	<p>For CDBG, the activity categories are the matrix codes. The activity category/matrix code is one of the most critical data items you will enter when setting up a CDBG activity. The matrix code, along with the national objective you will specify for the activity, identifies the purpose and eligibility of the assistance being provided. Together, they determine the type of accomplishments you will report.</p> <p>For the accomplishment data you report in IDIS to be accurate and useful, it is very important that you assign the most appropriate and most specific matrix code to each activity. Information to assist you in making the correct selection is provided in:</p> <p>Definitions of CDBG Matrix Codes: http://www.hud.gov/offices/cpd/systems/idis/cdbg/Matrix%20Code%20Definitions.pdf</p> <p>Definitions of CDBG National Objectives: http://www.hud.gov/offices/cpd/systems/idis/cdbg/nocdescriptions.cfm</p> <p>Matrix Code/National Objective Table: http://archives.hud.gov/offices/cpd/systems/idis/library/matrix_noc.pdf</p> <p>Valid Matrix Code/National Objective/Accomplishment Type Combinations: http://www.hud.gov/offices/cpd/systems/idis/cdbg/Matrix%20Code%20National%20Objective%20Accomplishment%20Type%20Combinations.pdf</p> <p>If you are still unsure about which matrix code to assign to an activity after reviewing this material, your CPD Field Office representative can help you.</p> <p>See guidance below to avoid common mistakes when assigning matrix codes.</p>
Activity Description	A description of the activity is optional but strongly recommended.

Important Guidance: Assigning Correct Matrix Codes—Common Errors

When selecting a matrix code for public services or public facilities activities, use the most specific code that applies. **Do not use 05 General Public Services or 03 General Public Facilities, unless no other code applies.** Assign the specific 03* or 05* code that most accurately describes how CDBG funds are being used. The general codes do not provide enough information to HUD, the public, or our stakeholders about how CDBG funds are expended. The National Expenditure reports on the CDBG website (http://portal.hud.gov/hudportal/HUD?src=/program_offices/comm_planning/communitydevelopment/budget/disbursementreports) reveal the size of this problem. Almost a quarter of CDBG expenditures for public services are listed as 05 General Public Services, when nearly all of those expenditures actually fit under a more specific public services code.

Grantees may only have one public service program or public facility in an activity. This is the only way that HUD can determine national objective compliance for a particular service or facility. For instance, you may not combine in one activity operating costs for CDBG-funded senior meals-on-wheels, child care, and youth programs that are taking place at a community center. Each program must be in a separate activity in order to be able to demonstrate that each program has met a national objective. Likewise, you may not combine five different day care centers in one activity, even if they are serving the same neighborhood and/or carried out by the same provider. Each day care center must be reported in a separate activity in order to determine national objective compliance.

- **Use matrix code 05U for Housing Counseling.** This is the **only** matrix code for which you report accomplishments for the number of households receiving Housing Counseling. Counseling may be provided to purchase a home, to avoid foreclosure, and to current and prospective renters. This code must be used for counseling prospective homebuyers that are not part of a Homeownership Assistance (13 and 05R matrix codes) program.
- Matrix codes **05R Homeownership Assistance (not direct)** and **13 Direct Homeownership Assistance** are to be used solely to provide financial assistance to homebuyers for the purchase of a home. The accomplishments for these two types of homeownership assistance are the number of households receiving financial assistance toward purchasing a home. A portion of the activity delivery costs may for these activities may provide housing counseling to prospective homebuyers. However, the housing counseling should be limited to households that are participating in your homeownership program. Grantees MAY report the number of households receiving housing counseling under the performance measures for these activities. Those households may not be reported in the beneficiary data providing income level and race/ethnicity information. Income level and race/ethnicity data are only to be reported for those households that actually purchase a home.
- **Matrix code 14H, Housing Rehabilitation Administration,** is to be used for the costs of running a rehab program, i.e., activity delivery costs associated with actual rehabilitation activities. It is *not* to be used for costs unrelated to running a rehab program, such as tenant/landlord counseling, planning, and development of research studies on foreclosures. Housing counseling may be part of the activity delivery costs only for those households whose housing units are being rehabilitated.

Important Guidance: Will Accomplishments be reported at another activity?

Answering “No”

This field defaults to “no” because, for most CDBG activities, grantees will enter accomplishments. However, in spite of this question and in spite of leaving this field defaulted to “No,” grantees are not entering accomplishments for some activities. This is a serious issue that appears most frequently for a project that is only partially supported with CDBG funds. Accomplishments must be reported under a CDBG activity in IDIS when:

- CDBG funds are used only to cover activity delivery costs for a project
- CDBG funds are used only for acquisition of real property for a project
- Different components of a CDBG-assisted project meet different national objectives

When the CDBG program is funding the activity delivery costs and the actual assistance, such as the rehabilitation or new construction of housing units, is funded from other sources, then the accomplishments for this project must be reported in the CDBG activity that funded the activity delivery costs. All the accomplishments derived from the actual assistance must be reported in the CDBG activity funding the activity delivery costs. Otherwise, the CDBG program will not get credit for its part in funding that project. It is very important to demonstrate that each CDBG activity has results. The CDBG program believes that it is situations like this where it loses a significant amount of data resulting in the underreporting of CDBG accomplishments and the misrepresentation of program results.

Example: If Amyville used CDBG funds to cover the activity delivery costs for a HOME new construction activity that produced 150 housing units occupied by 100 low-income households and 50 extremely low-income households, Amyville would report those beneficiaries along with their race/ethnicity data in its CDBG activity covering the activity delivery costs. That activity would need to remain open in IDIS until all units were occupied in order to report complete beneficiary data. The matrix code for the CDBG activity would be 14J, a recent addition to the CDBG codes, to be assigned when using CDBG funds for activity delivery costs for HOME activities. Accomplishments for this project would also be reported for the HOME program. Both CDBG and the HOME program need to get credit for the results their funds have helped to achieve.

Below is a chart demonstrating when grantees must report accomplishments for 14H and 14J activities. This is especially important for activities with a matrix code of 14H because this code is used so frequently and does not require accomplishments when those accomplishments are reported in another CDBG activity. When the latter situation exists, the question asking “Will accomplishments be reported at another activity?” is answered “Yes” and the IDIS Activity ID must be provided for the activity reporting the accomplishments.

Activity	Hard Costs Paid With:	Report Accomplishments in IDIS?
14H: Housing Rehab Admin	CDBG	Generally reported under other activities
14H: Housing Rehab Admin	Non-CDBG	Yes
14J: Housing Services	HOME	Yes

While activities with a matrix code of 14H and 14J are the most common activities that are set up expressly for the purpose of funding activity delivery costs, other matrix codes may be set up solely for that purpose. However, it is only necessary to set up activity delivery activities separately when the costs for the actual activity are being funded by another source. It is then that those activities must report accomplishments, since they would be the only place in IDIS to provide credit to the CDBG program for those accomplishments. For example, when a grantee pays for the activity delivery costs for an 18A activity using CDBG funds but the actual loans to for-profit businesses are made using an EDA grant, then the grantee must report the accomplishments from the loans in the CDBG activity set up to cover the activity delivery costs for that economic development program. By doing so, the CDBG program will get credit for supporting that program. Otherwise, it would appear that those funds produced no results. This would, of course, not portray an accurate picture of the productive use of CDBG funds and implies that no national objective was met.

Except for 14H and 14J, there are no specific matrix codes for activities that solely cover activity delivery costs. Therefore, when an activity is not a housing rehabilitation activity or when an activity's hard costs are not funded by the HOME program, and a grantee uses CDBG funds solely to pay for activity delivery costs, the grantee should use the same matrix code for the activity delivery costs as it would if CDBG funds were used for providing the actual assistance. In these cases, when other funding sources are used to provide the actual assistance, accomplishments must be reported in the CDBG activity covering the activity delivery costs. Otherwise, the CDBG program would not get credit for those accomplishments and the activity would not meet a national objective.

In addition to CDBG activities that only provide activity delivery funds for projects, CDBG funds are often used for acquisition of real property, with other funding sources used to construct or rehabilitate buildings on that property. The end use would, of course, need to qualify as a CDBG-eligible use and meet a national objective. For instance, when a grantee uses CDBG funds to pay for the acquisition of a piece of property on which Habitat for Humanity will rehabilitate a house, the grantee will set up a CDBG activity with a matrix code of 14G Acquisition for Rehabilitation. Once Habitat has rehabilitated the house and it is occupied, then all the accomplishment, beneficiary, and performance measurement data must be reported in the CDBG activity with the 14G matrix code. Therefore, that acquisition activity will need to stay open until the rehabilitation is completed and the housing unit is occupied. Once again, the accomplishments for this project must be reported in the 14G activity because it is the only place in IDIS to demonstrate the results of the use of CDBG funds for that project.

Generally, matrix code 01 Acquisition of Real Property is the most common matrix code assigned for which CDBG funds would be used solely for acquisition. However, other codes may apply, including 17A Acquisition for Economic Development.

Answering "Yes"

While it is important to ensure that all accomplishments supported with CDBG funding are reported in IDIS under CDBG activities, it is also important not to duplicate accomplishment reporting. This also would misrepresent the results of the program. While it is necessary, for instance, to report the same results for a project that has both CDBG and HOME funds under each program in IDIS, it is not permissible to report the same results under two different CDBG activities. Grantees should only report a specific accomplishment once under one activity if the activity is not funded with other CPD formula grant funds.

Duplicate reporting most often occurs when grantees set up two separate activities in support of a single or single set of accomplishments. This is most prevalent in the following situations:

- When a grantee sets up one CDBG activity for activity delivery costs and separate CDBG activity that is actually providing the assistance

- When a grantee sets up a separate activity for Acquisition of Real Property and a separate activity for the construction or rehabilitation to take place on the property
- When a grantee sets up a new activity for each program year for a project that will not be completed and have accomplishments until year two or after

In each of the above scenarios, it is important that accomplishments be reported in only one of the activities. In the remaining activity or activities, the question, “Are accomplishments reported at another activity?” should be answered, “Yes,” and the IDIS Activity ID of the activity reporting the accomplishments should be entered. A general rule for the above situations is to report accomplishments in the following activities, respectively:

- The activity that is actually providing the assistance
- The actual construction or rehabilitation activity
- The activity under which the project was completed, i.e. the activity that was set up in the most recent program year

Example: When CDBG grantees undertake housing rehabilitation activities, the actual rehabilitation hard costs should be reported in an activity coded 14A-D, 14F, 14G, or 14I. The activity delivery costs for those activities are reported separately using 14H as the matrix code. Grantees should only report accomplishments for those activities in which the actual rehabilitation is taking place.

It should be noted that many grantees do not set up separate activities for activity delivery costs, but instead, include those costs in the activity that is actually providing the assistance. This method of setting up activities reduces the risk of double counting accomplishments; however, both methods are acceptable. It is also important to note that all of the activities must have the same national objective as the activity that contains the accomplishments.

Field	Description
Source of Funds	<i>Important Guidance: Accurately Reporting Leveraged Funds</i> It is important that grantees enter all leveraged funds for each of their activities. Leveraged funds demonstrate that the CDBG program generates additional investment in their communities and are a key indicator for many of the program's stakeholders. Enter accurate leveraging data. Grantees should not enter leveraging amounts for the Appalachian Regional Commission (ARC), unless they are located in the Appalachian region and the activity is jointly funded with ARC funding. The system will automatically enter the CDBG amounts for each activity.
<i>HUD Funds</i>	
CDBG	This read-only field is blank on initial setup. It will be populated by the system once CDBG funds are committed to the activity through the Activity Funding option. When the ACTIVITY STATUS is set to Completed, the field shows the total amount of CDBG funds disbursed.
Section 108 Loan Guarantee	Enter the amount of Section 108 loan funds spent on this activity. Do not input the amount of CDBG funds (which the system will display in the previous field once the activity is funded) in this field.
ESG	Enter the amount of any ESG funds spent on this activity.
HOME	Enter the amount of any HOME funds spent on this activity.
HOPWA	Enter the amount of any HOPWA funds spent on this activity.
<i>Other Funds</i>	
Appalachian Regional Commission	Enter the amount of any Appalachian Regional Commission funds leveraged for this activity. Grantees should not enter leveraging amounts for the Appalachian Regional Commission (ARC), unless they are located in the Appalachian region and the activity is jointly funded with ARC funding. The system will automatically enter the CDBG amounts for each activity.
Other Federal Funds	Enter the amount of any non-CPD federal funds leveraged for this activity.
State/Local Funds	Enter the amount of any state/local funds leveraged for this
Private Funds	Enter the amount of any private funds leveraged for this activity.
Other	Enter the name(s) and the amount of funds leveraged from other sources for this activity.
Activity Costs (HUD + Other Funds) Total	This read-only field displays the total amount of all funds entered.
<i>Leveraging Ratio (CDBG + 108 : All Other Funds)</i>	
CDBG + 108	This read-only field is always 1 .
All Other Funds	This automatically calculated is equal to the sum of the CDBG and Section 108 amounts divided into all other amounts.

Field	Description
Fields in gray box	These read-only fields identify the activity you are processing. They are populated with information from the Add Activity screen.
National Objective	A read-only field showing the objective input for the activity on the first CDBG setup screen.
County Code	Enter the FIPS county code for the area being assisted. (See: http://www.itl.nist.gov/fipspubs/)
Census Tract	Identify the Census tract contained in the service area. The required format for Census tracts is “nnnn.nn”(e.g., input Census tract 7 as “0007.00”).
Block Groups	If the service area includes the entire Census tract, leave these fields blank. Otherwise, check each block group covered in whole or in part by the service area.
<Add Another> button	Click to add another COUNTY CODE/CENSUS TRACT.
<Delete> button	Check the box in the Delete column of the row(s) you want to delete, then click the <Delete> button.
Total # Low/Mod	Enter the number of survey respondents who are LMI.
Total Low/Mod Universe Population	Enter the total number of survey respondents. This must be greater than or equal to TOTAL # LOW/MOD.
% Low/Mod	This read-only field shows the percentage of low/mod persons in the service area. It is equal to (TOTAL # LOW/MOD divided by TOTAL LOW/MOD UNIVERSE POPULATION) times 100.

Field	Description
Total Number Low/Mod	The total number of LMI persons in the service area.
Total Low/Mod Universe Population	The number of persons in the service area with the potential of being deemed low/mod.
Data Used for Calculations	<p>For most users, this will be Capped.</p> <p>The calculations are based on HUD's Low/Mod Income Summary Data (LMISD). It is prepared using Section 8 income limits, which are calculated using fair market rent area definitions. The income limits are based on HUD estimates of median family income, with adjustments for areas that have unusually high or low income-to-housing cost ratios. Based on this, the Section 8 income limits are considered "capped." A 1998 legislative change allowed HUD to grant an exception from the cap on low/mod income levels to 10 jurisdictions (metropolitan areas). Entitlement grantees in these 10 jurisdictions may elect to use either the capped or "uncapped" LMISD to calculate the percentage of low/mod persons in the service area. These jurisdictions can be found at the following website: http://www.hud.gov/offices/cpd/affordablehousing/programs/home/limits/income/2012/</p>
% Low/Mod	The percentage of low/mod persons in the service area. It is equal to (TOTAL NUMBER LOW/MOD divided by TOTAL LOW/MOD UNIVERSE POPULATION) times 100.
LMISD Date	The effective date of the low/mod income summary data (LMISD) used to populate the TOTAL NUMBER LOW/MOD and TOTAL LOW/MOD UNIVERSE POPULATION fields.
Ready to Fund	<p>This field will be No until the % LOW/MOD field is a minimum of 51% (the minimum will be different for exception grantees).</p> <p>Once % Low/Mod is greater than 51%, READY TO FUND is changed to Yes and the activity can be funded with CDBG money using the funding function.</p>

When you are finished click the <Save> button.

Reporting Accomplishments for LMA Activities

This is the accomplishment screen that is completed for activities with a national objective of:

- LMA: Low/mod area benefit

Direct Benefit Data by Persons

For LMJ activities and for LMC activities, grantees must report race/ethnicity and income levels data by persons, except for a few instances related to housing activities (such as activities with matrix codes 05S, 05T, and 05U):

Race/Ethnicity

Field	Description
Race	<p>Select the race for which counts by persons are to be entered. The HUD definitions are:</p> <p>White: A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.</p> <p>Black/African American: A person having origins in any of the black racial groups of Africa.</p> <p>Asian: A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.</p> <p>American Indian/Alaskan Native: A person having origins in any of the original peoples of North and South America (including Central America) and who maintains a tribal affiliation or community attachment.</p>

	<p>Native Hawaiian/Other Pacific Islander: A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.</p> <p>American Indian/Alaskan Native and White: A person having these multiple racial origins as defined above.</p> <p>Asian and White: A person having these multiple racial origins as defined above.</p> <p>Black/African American and White: A person having these multiple racial origins as defined above.</p> <p>American Indian/Alaskan Native and Black/African American: A person having these multiple racial origins as defined above.</p> <p>Other Multi-Racial: Category used for reporting individual responses that are not included in any of the categories listed above.</p>

Below are instructions on reporting race and ethnicity data for activities that involve removing architectural barriers or making ADA improvements to public buildings.

Important Guidance: Reporting Race/Ethnicity Data for Activities Providing Access for Persons with Disabilities

If you are assisting an eligible activity under the LMC national objective at 570.208(a)(2)(ii) [Entitlements] and 570.483(b)(2)(ii)(A) [States], and cannot obtain information on the beneficiaries with disabilities, use the following guidelines for reporting race and ethnicity data on the LMA accomplishment screen.

HUD has a website with Census data on the number of persons with disabilities, by race and ethnicity, at the Census tract level. The web address is: <http://www.hud.gov/offices/cpd/systems/census/statemap.cfm>

On this website, select a state. On the next page, scroll down to “Disability by Race & Ethnicity” and click on “Download Excel Spreadsheet.”

Select the data you want by using the Place Name filter arrow in Column K. Once you have selected a place, use data from the following columns:

Column L:	Census tract
Column O:	Number of persons with disabilities in the Census tract
Columns P–U:	Number of persons with disabilities by race
Column V:	Number of persons with disabilities of Hispanic ethnicity

If more than one Census tract is served by the activity, total the columns for the appropriate Census tracts and use those totals to complete the accomplishment screen.

Note that the data in Column V on persons of Hispanic ethnicity is not broken down by race, which is how the information must be reported on the accomplishment screen. Grantees may use their own judgment in determining how to break down ethnicity by race.

Income Levels

Important Guidance: Not Benefiting Moderate-Income Persons to the Exclusion of Low-Income Persons

It is important to always report income levels in the appropriate categories. Some grantees, solely to minimize data entry, report all beneficiaries in the moderate income category. This practice conveys the impression in reports to Congress and other Federal oversight agencies that grantees are ignoring the program's legislative mandate not to benefit moderate-income persons to the exclusion of low-income persons.

Field	Description
Extremely Low	Enter the number of persons benefiting whose income is at or below 30% of the median family income for the area.
Low	Enter the number of persons benefiting whose income is above 30% and at or below 50% of the median family income for the area.
Moderate	Enter the number of persons benefiting whose income is above 50% and at or below 80% of the median family income for the area.
Non-Low/Moderate	Enter the number of persons benefiting whose income is above 80% of the median family income for the area.
Totals	This read-only field shows the sum of the values input in the previous four fields. The Income Levels TOTALS field and the Race/Ethnicity TOTALS by race field must be equal.
Percent Low/Mod	This read-only field shows the percentage of beneficiaries who are low/mod. It is equal to (EXTREMELY LOW + LOW + MODERATE) divided by TOTALS.

Important Guidance: Reporting Income Data for Presumed Benefit Activities

If an LMC* activity is limited to assisting one or more of the presumptive benefit groups, report the number of persons benefiting under the following income categories unless you have information that supports reporting them under a different income category:

Group	Income Level
Abused children	Extremely low income
Battered spouses	Low income
Severely disabled adults	Low income
Homeless persons	Extremely low income
Illiterate adults	Low income
Persons with AIDS	Low income
Migrant farm workers	Low income
Elderly	<p>If assistance is to acquire, construct, convert, and/or rehabilitate a senior center or to pay for providing center-based senior services, report the beneficiaries as moderate income.</p> <p>If assistance is for other services (not center-based), report the elderly beneficiaries as low income.</p>

If an activity serves a combination of these groups, identify the number in each group and report those numbers under the appropriate income levels. Estimate race/ethnicity categories either by observation or by using numbers proportionate to the general population.

- **Nature/Location Activities:** Report all beneficiaries as moderate income unless you have information to support reporting them under another income category.
- **Activities Providing Access for Persons with Disabilities:** For LMC activities carried out under 570.208(a)(2)(ii), report all beneficiaries as low income unless you have information to support reporting them under another income category.

Direct Benefit Data by Households

For LMH* activities and LMC* activities with an accomplishment type of 04-Households or 10-Housing Units, race/ethnicity and income levels data is reported by households. Count each household as one, regardless of the number of persons in the household. Household means all the persons who occupy a housing unit. The occupants may be a single family, one person living alone, two or more families living together, or any group of related or unrelated persons who share living arrangements.

Income Levels

Important Guidance: Reporting Accurate Income Data

It is important to always report income levels in the appropriate categories. Some grantees, solely to minimize data entry, report all beneficiaries in the moderate income category. This practice conveys the impression in reports to Congress and other Federal oversight agencies that grantees are ignoring the program's legislative mandate not to benefit moderate-income households to the exclusion of low-income households. Therefore, it is important that you always report income levels in the appropriate categories.

Field	Description
Extremely Low: Owner and Renter	Enter the number of owner households and the number of renter households whose income is at or below 30% of the median family income for the area.
Extremely Low: Total	This read-only field shows the sum of the previous two fields.
Low: Owner and Renter	Enter the number of owner households and the number of renter households whose income is above 30% and at or below 50% of the median family income for the area.
Low: Total	This read-only field shows the sum of the previous two fields.
Moderate: Owner and Renter	Enter the number of owner households and the number of renter households whose income is above 50% and at or below 80% of the median family income for the area.
Moderate: Total	This read-only field shows the sum of the previous two fields.
Non-Low/Moderate: Owner and Renter	Enter the number of owner households and the number of renter households whose income is above 80% of the median family income for the area.
Totals	The Income Levels OWNER TOTAL must equal the Race/Ethnicity OWNER TOTAL and the Income Levels RENTER TOTAL must equal the Race/Ethnicity RENTAL TOTAL.
Percent Low/Mod	The calculation for each of these read-only fields showing the percentage of households that are low/mod is (EXTREMELY LOW + LOW + MODERATE) divided by TOTALS.

Direct Financial Assistance to Homebuyers

Below are additional performance measures displayed for matrix code 05R. These measures are also displayed for matrix code 13, Indirect Financial Assistance to Homebuyers.

Important Guidance: Accurately Reporting Housing Counseling and Direct Homeownership Assistance

The total number of households assisted with direct financial assistance to homebuyers is the number of households receiving financial assistance to purchase a house and is brought forward from the CDBG Accomplishment Detail (Page 1). It is only on this performance measurement screen below that the grantee may report the number of first-time homebuyers receiving housing counseling for activities with a 05R or 13 matrix code. For activities with these matrix codes, the grantee should not report the number of households receiving housing counseling on any other fields. Only for activities with a matrix code of 05U Housing Counseling may grantees can report the number of households receiving housing counseling as the accomplishment.

The only units to be included in the count are pre-1978 units where the rehabilitation work exceeds the \$5,000 threshold.</p> <p>Do not count units that are free of lead-based paint (e.g., built in 1978 or later, a lead-based paint inspection report shows no lead paint) or units where the rehabilitation does not address all surfaces that could pose a lead hazard (e.g., rehabilitation work less than \$5,000 a unit).</p>

Important Guidance: Accurately Reporting Energy Star-Certified Units

Grantees must enter Energy Star-related data correctly. Installing replacement windows, performing weatherization improvements, or installing Energy Star-certified appliances alone does not make a home Energy Star-certified. Energy Star is **a system** for achieving and verifying a certain level of performance with respect to energy efficiency. To earn the Energy Star certification for an entire home, the home must meet strict guidelines for energy efficiency set by the U. S. Environmental Protection Agency. Homes achieve this level of performance through a **combination** of energy-efficient improvements, including effective insulation systems, high-performance windows, tight construction and ducts, efficient heating and cooling equipment, and Energy Star-certified lighting and appliances. Energy Star certification for a home requires third-party verification by a certified Home Energy Rater (or the equivalent), who works closely with the builder throughout the construction process and inspect the housing unit to determine compliance with requirements.

At the time this guidance was released, Energy Star-certified housing units funded by CDBG will be either newly constructed single-family detached homes, newly constructed multifamily properties, or multifamily properties that undergo significant gut rehabilitation, defined as requiring a change of use, the reconstruction of a vacant structure, or cause for the building to be out of service for at least 30 consecutive days. Gut or substantial rehabilitation of single family housing units with CDBG funds may also earn the Energy Star label. CDBG grantees initiating new Energy Star gut rehabilitation projects must meet or exceed Energy Star standards for New Homes, until the release of specific guidelines for gut rehabilitation by EPA. Please visit <http://www.energystar.gov> to find a wealth of information about Energy Star housing.

Many CDBG grantees are incorrectly identifying housing units as Energy Star-certified in IDIS, resulting in inflated, inaccurate numbers in IDIS reports and intensive efforts to determine the correct number of CDBG units that actually attained Energy Star certification. The number of Energy Star-certified units produced by CDBG grantees is reported to the Secretary of HUD and to the Office of Management and Budget each quarter to assess CDBG's progress in meeting the Energy Star goal in HUD's Strategic Plan. CDBG must be able to obtain Energy Star data in IDIS that is reliable and that does not routinely require verification. The following table demonstrates reporting discrepancies identified for new housing construction Energy Star units during the past four years.

Fiscal Year	Number of New Construction Energy Star-Certified Units Reported in IDIS by Grantees	Number of Units Verified as Energy Star, after HUD Staff Review	Number of Units Incorrectly Reported as Energy Star
2011	371	281	90
2010	631	369	262
2009	724	376	348
2008	447	290	157

Grantees should carefully review the New Home and Multifamily High Rise Energy Star requirements on <http://www.energystar.gov> to prevent recurrence of these types of reporting errors. It should also be reiterated that performing one or more of the following improvements alone does **not** earn the housing unit the Energy Star label:

- Installation of replacement windows
- Installation of Energy Star-rated appliances
- Installation of insulation
- Installation of water efficient toilets
- Weatherization projects

While these are commendable energy conservation measures that the CDBG program encourages, they do not earn a housing unit Energy Star certification by themselves. Therefore, they should not be reported as Energy Star-certified housing units in IDIS.
