

Release date: October 17, 2016

ARM V14.8.5.0

Contents of the Release

Changes to Web Service Interface

None.

Changes to Databag XML Schema

None.

Changes to WSDL

None.

Changes to HCS Interface

N/A

Changes to SDK

None.

Changes to the Web Service Behavior

1. Agency's Physical Address may no longer contain a P.O. Box. An attempt to submit a P.O. Box will result in an error and the submission will fail.
2. Form 9902 **activity_type_id** attribute values will now be checked against HUD funded activities for the agency for which the Form 9902 is submitted, or its parent agency. If no funded activities are found for either, an error will be thrown and the submission will fail.
3. The value of the element **Group_Session_Activity_Type** will now be checked against HUD funded activities for the agency for which the Form 9902 is submitted, or its parent agency. If no funded activities are found for either, an error will be thrown and the submission will fail.

4. The value of the element **Client_Activity_Type** will now be checked against HUD funded activities for the agency for which the Client Profile is submitted, or its parent agency. If no funded activities are found for either, an error will be thrown and the submission will fail.
5. Form 9902 Submissions will no longer be accepted for submission periods that are marked as closed.

Advisories

None.
