

Subj: HUD CMS Developer Alert: ARM Pilot Service Restored - Available for CMS Testing

HUD CMS Developers:

As the result of security vulnerabilities identified on ARM, the environment is being upgraded. The upgrade has been completed on ARM Pilot. Service to ARM Pilot (<https://armpilot.hud.gov>) has been restored. The environment is now available to CMS to conduct testing. Prior to migrating the updated environment in production and restoring service to arm.hud.gov, HUD requests that CMS complete testing in ARM Pilot by Friday January 26, 2018.

Once your CMS has completed testing on ARM Pilot, please notify me by sending an email to theresa.houck@salientcrgt.com that includes your CMS name and date of test completion.

Please let me know if you have any questions.

Theresa
