

Subj: HUD CMS Developer Alert: Fiscal Year 2021 Reference Value

HUD CMS Developers:

Fiscal Year 2021 Reference – On the evening of Wednesday September 30, 2020 the HCS system will be updated for Fiscal Year 2021. At that time, a new reference value for FY 2021 will be created for ARM. You will have to invoke the method "refreshAllReferenceItemsInCache" (or "refreshReferenceItemCache" with referenceId=28) to activate this reference value. This only needs to be done once. An email will be sent to CMS developers on 9/30/2020 when the new reference value is available.
