

Subj: HUD CMS Developer Alert: Fiscal Year 2019 Reference Now Available

HUD CMS Developers:

The HCS/ARM systems have been set up for Fiscal Year 2019. The FY 2019 Reference value (id=25) is now available in ARM. You will have to invoke the method "refreshAllReferenceItemsInCache" (or "refreshReferenceItemCache" with referenceId=28) to receive the reference value for FY 2019. This only needs to be done once.

Please let me know if you have any questions.

Best Regards,

Theresa Houck

HUD HCS/ARM Support Team
