Subject: HUD CMS Developer Alert: Fiscal Year 2022 Reference Now Available

HUD CMS Developers:

The HCS/ARM systems have been set up for Fiscal Year 2022. The FY 2022 Reference value (id=28) is now available in the ARM v6 Web Service. You will have to invoke the method "refreshAllReferenceItemsInCache" (or "refreshReferenceItemCache" with referenceId=28) to receive the reference value for FY 2022. This only needs to be done once.

ARM v6 Web Service:
