Subj: HUD CMS Developer Alert: Fiscal Year 2023 Reference Value

HUD CMS Developers:

Fiscal Year 2023 Reference – On the evening of Friday September 30, 2022 the HCS system will be updated for Fiscal Year 2023. At that time, a new reference value for FY 2023 will be created for ARM. You will have to invoke the method "refreshAllReferenceItemsInCache" (or "refreshReferenceItemCache" with referenceId=28) to activate this reference value. This only needs to be done once. An email will be sent to CMS developers on 9/30/2022 when the new reference value is available.

Best Regards,
Theresa Houck
