Subj: HUD CMS Developer Alert: Schedule for Restoring Service to arm.hud.gov

HUD CMS Developers:

HCS ARM Web Service (v.14.13.4.0) is anticipated to be released and service restored to arm.hud.gov this weekend.

A message will be sent to agencies via the Housing Counseling Mailing List Monday morning that includes information regarding 9902 reporting. Information on subscribing to the Housing Counseling Mailing List can be found on the HUD Exchange at: https://www.hudexchange.info/programs/housing-counseling/mailing-list/.

The HUD HCS/ARM team is grateful to CMS developers for your very quick response to the request for testing. The support received during this time from CMS allowed for an expedited process to upgrade the system and restore service.

Thank you for your understanding and patience.

Theresa

HUD HCS/ARM Support Team
