Subject: URGENT HUD CMS Developer Alert: TLS 1.0 No Longer Supported on 10/20/2018

HUD CMS Developers:

We have just learned that HUD will be disabling TLS v1.0 in the ARM production environment **this weekend on 10/20/2018**.

TLS v1.0 was disabled in the ARM pilot environment on 09/06/2018. If you have not already done so, please verify that your CMS is able to connect and submit to the ARM pilot environment as soon as possible. Let me know if this impacts your CMS' ability to connect to the ARM service.

Thank you,
Theresa
HUD HCS/ARM Support Team
