Subject: URGENT HUD CMS Developer Alert: TLS v1.1 No Longer Supported as of June 28, 2019

HUD CMS Developers:

HUD plans to disable TLS v1.1 in production the weekend of **June 28, 2019**. TLS v1.1 has been disabled in the **ARM Pilot environment** (<https://armpilot.hud.gov>). Please verify that your CMS is still able to connect to the ARM pilot environment as soon as possible and let me know if this impacts your CMS' ability to connect to the ARM service.

Thank you,
Theresa
HUD HCS/ARM Support Team
