Subject: HUD CMS Developer Alert: Updated ARM Interface Control Document (ICD)

HUD CMS Developers:

The ARM Interface Control Document has been updated to clarify the Client Level Data submission description and descriptions for the Client ID Number, Client Case Number, Client Purpose of Visit, and Client Activity Type fields. The descriptions are in in Appendix A – XML Tag Descriptions under Submission Type – Client Level Data.

The updated ICD is attached and will be posted to the CMS Guideline page shortly - <https://www.hudexchange.info/programs/housing-counseling/cms/#agency-reporting-module-arm-requirements>.

Thank you,
Theresa
HUD HCS/ARM Support Team
