Requirement Applicability List

HUGS Recipient Portal

Purpose

Reference the table below to determine if your program is currently included **(as of October 26, 2026)** in the HUGS Recipient Portal implementation scope. Implementation scope refers to the specific HUD programs, award types, and award years[1] that HUD has designated for Recipient Portal requirements.

- A program's inclusion in HUD's implementation scope means HUD has identified certain awards within that program as potentially subject to the requirement.
- However, inclusion in the implementation scope alone does not make an award covered. Recipients must also review their award documents and HUD communications to determine whether the requirement applies to a specific award.
