Added new M_BEN fields to I24 and I36 (2 fields to each). Updated the 'Data-Field' description column throughout the document and added Choice sections of code values throughout document.
03/18/2004	For release 8.0: Added new record types I31 – I36 to process new HOME data requirements as part of ADDI/HOMEROCS. Updated instructions on I19 – I26 record types to include coding changes required as part of ADDI/HOMEROCS. I30 record, update to documentation on ASSIS_CD.
09/16/2004	For release 8.3: Corrected I32 record for INIT_PRICE and AFTER_REHAB_VALUE documentation. Updates to I08 thru I12 record types: new instructions for submitting data for "BEN" fields.
09/16/2005	For release 8.7: Added new ACTV_CDBG fields to I08, I09, I10, I11, I12: new requirements for capturing faith-based data.
11/28/2005	For release 9.0: Added new COMPL_DT to I06 Added new fields to I08, I09, I10, I11, I12, and I53. Added new record types I37 and I38 for CDBG. Deleted obsolete formats for old HOME records: I19 thru I26.
05/2006	For release 10.0: Added new data elements/record types for Performance Measurements. The following record types are now obsolete: I18 (for ESG), I28 (for HOPWA). The following record types were added: I38 (for ESG), I40 (for HOPWA), I41 thru I44 (for CDBG). The following record types had new fields added: I27 (for HOPWA), I31, I32, I36 (for HOME), I08, I09, I10, I11, and I12 (for CDBG). Documentation was updated to add additional clarification/options for existing fields.
04/25/2008	Revised layouts for reengineering. Old layouts I02 – I43 will no longer be accepted. The new layouts are I100 – I700
12/05/2008	The following updates have been made to the layouts: 1) On I200 record type, MSG010 , Environmental Assessment Code will no longer default if spaces are sent. You must submit a valid answer. 2) On I200 record type, MSG011 , completion date can be sent when cancelling an activity as well as when completing an activity. 3) On I300 record type, MSG005 , matrix code: we will retain same values as used on the old I06, MSG20 field. Length has been changed on MSG005 to reflect this change.

	4) On I300 record type, MSG006, national objective code: we will retain same values as used on old I06, MSG21 field. Length has been changed on MSG006 to reflect this change. 5) On I400 record type, MSG020 has changed data type/length. You will send the name of the organization just as you do today. 6) On I400 record type, MSG022 was a duplicate of MSG014. MSG022 was deleted and MSG023 has been renamed MSG022. 7) On I400 record type, value of "4 = TBRA" has been added to documentation as a valid value for MSG005. 8) On I404 record type, MSG015 has been dropped. 9) On I500 record type, MSG008 has changed data type/length. You will send the name of the sponsor. 10) On I600 record type, MSG006 has changed data type/length. You will send the name of the organization carrying out the activity if other than the grantee.
12/29/2008	On I700 record type, field for PGM_YR has been added to the record type.
09/11/2009	On I316 record type, additional values added for sending metrics for jobs performance. On I405 record type, deleted duplicate MSG005 On I506 record type, MSG007, "other" description has been dropped as a requirement. This field will remain on the document only because there is a MSG008. If you send MSG007, it will be discarded. On I508 record type, MSG007, field description has been modified to read: Enter number of households served. Previously it read Enter number of persons served. On I511 record type, MSG008 (Other description) has been removed.
10/05/2009	On I404 , length of data field for MSG012 changed to 100 (was 10).
02/18/2010	1) On I316, need to add 211010 Units Created through conversion of non-residential to residential buildings for Rental Rehab activities 2) On I403 documentation updated to show FUND_CAT_ID should be 12 (instead of 122) for Homeowner Rehab and Rental activities only. 122 is for Homebuyer. 123 is Homebuyer as well.
03/31/2010	1) On I300, rule has changed on MSG010: proposed_val. CDBG will capture proposed accomplishments by year. Send a value of zero for this field if accomplishments are being reported on another activity. At time of release, any values previously sent for proposed_val will be assigned a year equal to the year the activity was set up in IDIS. To send proposed values for subsequent years, you must use the I318. 2) On I300, rule has changed on MSG051-056. No longer required on activities where accomplishment will be reported on another activity. 3) On I305, you do not need to send this data on any activity when accomplishments will be reported on another activity. 4) New record I318 has been added to allow submission of CDBG proposed accomplishment value by year. 5) On I310, new field has been added (jobs_placed) to capture jobs placed for activities with matrix code 05H.
06/29/2010	1) On I300, new fields MSG060 – MSG061 have been added pertaining to Colonia activities only. 2) New record I319 has been added to accommodate submission of CDBG Colonia narrative. This applies only to State CDBG activities assisting a colonia.

12/29/2010	1) On I316, new performance types have been added to accommodate capture of data for Code Enforcement activities. The new performance types (212001, 212002, 212003, and 212004) and their associated titles are listed on the I316 documentation. 2) New record I320 has been added to accommodate submission of CDBG Code Enforcement narrative by accomplishment year. This applies only to Code Enforcement activities. 3) New record I321 has been added to accommodate submission of IDIS activity id's associated to Code Enforcement activities. 4) Documentation updated for Property_Type_id on I400 record. 5) Documentation updated for PS Persons on I310 record.
04/28/2011	1) I402 , new fields MSG023 – MSG024 have been added to capture Lead Paint data.
07/28/2011	1) New record I322 has been added to accommodate submission of multiple addresses for CDBG housing activities.
07/28/2011	1) Correction of MSG #s on I322
08/11/2011	1) Formatting issues corrected throughout document.
10/31/2011	1) MSG012 added to record type I322 2) Documentation updated for I405, hh_type values 3) New record types added: I610 and I611 to be used for submitting HESG Activity setup data.
01/04/2012	1) I100 modified – MSG014 added for HOPWA projects 2) New record types added: I323 and I324 to be used for submitting CDBG Lead Paint information. 3) I500 modified for new HOPWA requirements: MSG007, MSG008, MSG010 are now obsolete. New messages added: MSG013 thru MSG016 4) I504, I505, and I507 are now obsolete and will no longer be accepted. 5) I508 updated values for MSG006 6) I509 updated values for MSG006 7) I511 updated values for MSG006 8) New record types added: I513 and I515 to be used for submitting HOPWA setup and accomplishment data. Note: I512 and I514 to be implemented in future release. 9) I402 modified to include additional values for MSG023 and MSG024 10) I501, MSG008 and MSG009 obsolete; MSG010 - MSG012 added.
05/03/2012	1) I301, I323, and I324 – “Graffiti Removal” has been added as a new housing rehabilitation designation 2) New record types added for submitting HOPWA setup information – I512, I514
11/05/2013	Added an entry to I509 – Choices: HOPWA_EXPEND_TYPE_ID 906 - Direct program delivery costs
05/14/2018	1) Added matrix codes: 13A, 13B, 14K, 14L, 05Y, 05X 2) Added MSG062 for I300 (HSG_COUNSELING_GRANTEE_ID) for matrix codes: 13A, 14K, 14L, 05Y, and 05U 3) Changed MSG062 for I300 to HSG_COUNSELING_GRANTEE_NAME 4) Changed note for MSG062 for I300
11/01/2019	For record type I508, transaction 81004: modified text description to remove clause “(applicable to TBRA only)”; no software changes required. Note: • If grantee user processes a 81004 transaction for a TBRA activity, the transaction populates the [Total Number of Households that received HOPWA Tenant-Based Rental Assistance] accomplishment data field. • If grantee user processes a 81004 transaction for a STMUR activity, the transaction populates the [Households assisted with HOPWA Funds] accomplishment data field.

IDIS Online EDI Objects

06/12/2020	Updated references to TIN. The TIN_NUM field contains the grantee's Employer Identification Number. The Employer Identification Number (EIN) is a type of TIN issued by the IRS to identify a business entity. An EIN is not associated with an individual and as such is not PII.
03/07/2022	Updated HOME activity records to add new data elements to support HOME-ARP related changes.

I100 – General Record Information:

The primary key for Record Type I100 consists of fields TIN_NUM, PLAN_YR, PROJ_ID. The TIN_NUM field contains the grantee's Employer Identification Number. The Employer Identification Number (EIN) is a type of TIN issued by the IRS to identify a business entity. An EIN is not associated with an individual and as such is not PII.

I100 – Specific Message Field Notes:

1. One or more of the AMOUNT fields (CDBG, HOME, ESG, HOPWA) must have a value > 1.
2. MSG008 is submitted only if another grantee is granted access to setup activities under this project. The system will translate the EIN/TIN # to the appropriate grantee_id assigned in IDIS.

I100 Choices:

EDI_TRANSACTION_MODE:

- 01 – For sending a new project. Leave the PROJ_ID field blank. IDIS will assign the PROJ_ID and send the assigned id in the return file.
02 – For updating an existing project. PROJ_ID field should contain the id number of the project being updated.

PROJECT_STATUS_ID

- 1 – Open
4 – Cancelled

SPONSOR_ACTV GRANTEE_ID

For HOPWA projects only, specify name of sponsor. For those HOPWA projects being used for the grantee reporting, this field should be left blank.

I101 – General Record Information:

The primary key for Record Type I101 consists of fields TIN_NUM, PLAN_YR, PROJ_ID. The TIN)NUM field contains the grantee's Employer Identification Number. The Employer Identification Number (EIN) is a type of TIN issued by the IRS to identify a business entity. An EIN is not associated with an individual and as such is not PII.

I101 – Specific Message Field Notes:

1. IDIS can accommodate a project description text of up to 4000 characters. Due to constraints on the maximum length of an EDI record, you must send multiple MSG records to submit the full description. This is done through use of the MSG006 – through MSG045.

I200 – General Record Information:

The primary key for Record Type I200 consists of fields TIN_NUM, IDIS_ACTV_ID.; The TIN_NUM field contains the grantee's Employer Identification Number. The Employer Identification Number (EIN) is a type of TIN issued by the IRS to identify a business entity. An EIN is not associated with an individual and as such is not PII.

I200 – Specific Message Field Notes:

1. EDI_TRANSACTION_MODE:
 - 01 – For sending a new activity: Leave the IDIS_ACTV_ID field blank. IDIS will assign the IDIS_ACTV_ID and send the assigned id in the return file.
 - 02 – For updating an existing activity: IDIS_ACTV_ID field should contain the id number of the activity being updated.
2. COMPLETED_DT: only send a completion date when you are changing the status of an activity to complete (ACTIVITY_STATUS_ID = 2) or cancelled (ACTIVITY_STATUS_ID = 1). If you change the status to complete but do not send the completion date, the system will default completion date to “today’s date”.
3. ENV_ASSESS_STATUS_ID: required. See valid values below.

I200 – Choices:

ENV_ASSESS_STATUS_ID

- 1 = Exempt
- 2 = Completed
- 3 = Underway

ACTIVITY_STATUS_ID

- 1 = Open
- 2 = Completed
- 4 = Canceled

The Employer Identification Number (EIN) is a type of TIN issued by the IRS to identify a business entity. An EIN is not associated with an individual and as such is not PII.

I201 – Specific Message Field Notes:

1. IDIS can accommodate an activity description text of up to 4000 characters. Due to constraints on the maximum length of an EDI record, you must send multiple MSG records to submit the full description. This is done through use of the MSG005 through MSG044.

I202 – General Record Information:

The primary key for Record Type I202 consists of fields TIN_NUM IDIS_ACTV_ID, PROGRAM_ID.

The TIN_NUM field contains the grantee's Employer Identification Number. The Employer Identification Number (EIN) is a type of TIN issued by the IRS to identify a business entity. An EIN is not associated with an individual and as such is not PII.

You will never need to send a delete for the data on this record type. Rather, if you choose to delete the CDBG, HOME, ESG, or HOPWA data associated to an activity, you will process the delete through the I300, I400, I500, or I600 respectively. When you do that, the associated performance data will also be deleted for that program_id only.

I202 – Specific Message Field Notes:

1. Send one I202 record for each program (CDBG, HOME, ESG, and HOPWA) to be funded under this same IDIS Activity ID.
2. These fields (MSG09 and MSG10) do not apply to the CDBG program. These attributes are captured separately on the I300 record.

I202 – Choices:

PROGRAM_ID

- 1 – CDBG
- 2 – HOPWA
- 3 – HOME
- 4 – ESG

PERF_OBJECTIVE_ID

- 1 – Create suitable living environments
- 2 – Provide decent affordable housing
- 3 – Create economic opportunities

PERF_OUTCOME_ID

I300 – General Record Information:

The primary key for Record Type I300 consists of fields TIN_NUM IDIS_ACTV_ID, The TIN_NUM field contains the grantee's Employer Identification Number. The Employer Identification Number (EIN) is a type of TIN issued by the IRS to identify a business entity. An EIN is not associated with an individual and as such is not PII.

If sending EDI_TRANSACTION_MODE with a value of "03" to delete the CDBG path, all CDBG detail will be deleted. You do not need to send a delete for all other CDBG record types.

I300 – Specific Message Field Notes:

1. National Objective code is required for any non-administration/planning matrix codes.
2. The EIN # of the Unit of General Local Government that is receiving the money from the State CDBG program. Required for all State CDBG activities with a national objective code. The date funds were obligated or announced to the UOGLG is also required for State CDBG activities with a national objective code. The Employer Identification Number (EIN) is a type of TIN issued by the IRS to identify a business entity. An EIN is not associated with an individual and as such is not PII.
3. MSG041 – MSG046 apply only to area benefit activities (National objective code = LMA, LMAFI, LMASA). If submitted, LMA_PCT must be right justified and contain an implied decimal point (for example, 10% is entered as 01000). This field is only used on activities where census data was entered prior to release 9.0. LMA* activities where census data was entered after release 9.0, should send the LM_TOTAL and LM_POPULATION data elements and the system will calculate the LMA_PCT. For Entitlement activities where Census Data is used to calculate the percent low/mod, do not send LMA_PCT, LM_TOTAL, or LM_POPULATION. The system will calculate these items based on the county code/census tracts/block groups that are submitted for the activity via the I306 record. If an Entitlement activity benefits the entire service area (ALL_AREA_FLAG = 1), these fields will also be calculated by the system.
4. LMA_CAPPED_FLAG only applies to those grantees who have the option of using "capped" or "uncapped" LMISD data for calculating low/mod % served. If nothing is specified, the system will assume "capped".
5. PROPOSED_VAL: as of release 11.1, CDBG will capture proposed accomplishments by year. Send a value of zero for this field if accomplishments are being reported on another activity. At time of release, any values previously sent for proposed_val will be assigned a year equal to the year the activity was set up in IDIS. To send proposed values for subsequent years, you must use the I318.
6. Effective with release 11.1, send values of zero in MSG051-056 if activity is a multi-unit housing activity but accomplishments will be reported another activity.
7. COLONIA_FUND_FLAG and COLONIA_NM are required fields for Colonia activities on State CDBG activities.
8. HSG_COUNSELING_GRANTEE_ID is required for matrix codes: 13A, 14K, 14L, 05Y, and 05U. It will be prevented from being passed in for any other matrix codes. When passing the name, note that names are case-sensitive.

I300 – Choices:

ACTV_CDBG_CAT_ID (i.e. Matrix Code)

See HUD CDBG guidance for assigning Matrix Code

NATIONAL_OBJECTIVE_ID

See HUD CDBG guidance for assigning national objective code.

ACCOMP_TYPE_ID

- 01 = People (General)
- 02 = Youth
- 03 = Elderly
- 04 = Households (General)
- 08 = Businesses
- 09 = Organizations
- 10 = Housing Units
- 11 = Public Facilities
- 13 = Jobs
- 14 = Loans

AREA_TYPE_CD

- C = CDFI area activity
- S = Strategy area activity
- L = Local target area activity
- ' ' = Neither a CDFI, Strategy or Local target area activity

Note: If the activity has a national objective code of 'LMAFI', user must have selected 'CDFI' as area type and specified an associated area name

If the activity has a national objective code of 'LMA SA', user must have selected 'Strategy' as area type and specified an associated area name.

If the activity has a national objective code of 'LMHSP', user must have selected either 'CDFI' or 'Strategy' as area type and specified an associated area name.

LMA_SURVEY_FLAG

- C = Census tract
- S = Survey required

CARRYOUT_TYPE_ID

- 1 = Grantee employees
- 2 = Contractors
- 3 = Grantee Employees and Contractors

ACTV GRANTEE_TYPE_ID

- 4 = Subrecipient Only (Applicable on CDBG Entitlement Grantees or Insular Areas only.)
- 5 = CBDO Only (Applicable on CDBG Entitlement Grantees or Insular Areas only.)

- 6 = Subrecipient and CBDO (Applicable on CDBG Entitlement Grantees or Insular Areas only.)
- 7 = Another Public Agency (Applicable for any CDBG grantee.)
- 8 = A 105(a)(15) entity (Applicable on State Grantees or State Grant Recipients only.)
- 9 = Another unit of local government

ACTIVITY_GRANTEE_ID

Must be submitted for activities when CARRIED_OUTBY_CD = 4, 5, 6, 7, 8, or 9. You will need to send the ID that IDIS has assigned to organization. This information can be found through download of the Grantee table.

ALL_AREA_FLAG

This field only applies to LMA* activities for Entitlement grantees whose area of benefit is calculated using Census data and the activity benefits all counties/census tracts/block groups within the grantees jurisdiction.

LM_TOTAL and LM_POPULATION

These fields are used for LMA* activities carried out by State or Insular Area grantees as well as activities carried out by Entitlement grantees and the LMA_SURVEY_FLAG = survey. By submitting values in these fields, the system will calculate the low/mod %.

For activities carried out by entitlement grantees and the LMA_SURVEY_FLAG = Census, the system will calculate the values for these fields based on the data you submit on the I306 records OR if you indicated "Yes" for the ALL_AREA_FLAG on this record.

I301 – General Record Information:

The primary key for Record Type I301 consists of fields TIN_NUM IDIS_ACTV_ID, and REHAB_TYPE_ID. The TIN_NUM field contains the grantee's Employer Identification Number. The Employer Identification Number (EIN) is a type of TIN issued by the IRS to identify a business entity. An EIN is not associated with an individual and as such is not PII.

This record are to be used only on activities with matrix code of 14A, 14B, 14C, 14D, 14F, 14G, 14I, 14L, or 16A.

If multiple types of rehabilitation apply to a single activity, send multiple I301 records with the appropriate value in MSG005.

I301 – Specific Message Field Notes:

I301 – Choices:

REHAB_TYPE_ID

- 1 – Install security devices

I302 – General Record Information:

The primary key for Record Type I302 consists of fields TIN_NUM IDIS_ACTV_ID, This record type can be sent for an LMC* activity when it is required to specify the nature or location of the benefit. The TUN_NUM field contains the grantee's Employer Identification Number. The Employer Identification Number (EIN) is a type of TIN issued by the IRS to identify a business entity. An EIN is not associated with an individual and as such is not PII.

This record type can also be sent for a SBA activity to describe the boundaries of the slum/blight area.

I302 – Specific Message Field Notes:

1. IDIS can accommodate a description text of up to 4000 characters. Due to constraints on the maximum length of an EDI record you must send multiple MSG records to submit the full description. This is done through use of the MSG005 through MSG044.

I306 – General Record Information:

The primary key for Record Type I306 consists of fields TIN_NUM, and IDIS_ACTV_ID, COUNTY_CD, CENSUS_TRACT. The TIN_NUM field contains the grantee's Employer Identification Number. The Employer Identification Number (EIN) is a type of TIN issued by the IRS to identify a business entity. An EIN is not associated with an individual and as such is not PII.

This record is only used for CDBG activities with a national objective code of LMA*.

Send one I306 record for each county code/census tract/block group/ combination that the activity benefits. If the activity benefits the entire county, submit the county code and send "Y" in the ALL_COUNTY_FLAG. If the activity benefits an entire census tract, submit the county code and census tract and send "Y" in All_bg_flag. If the activity benefits individual block groups within a census tract, submit the county code, census tract, and the individual BG_01 through BG_10 that apply.

For entitlement grantees, IDIS will verify county code/census tract/block group against the LMISD data. Percent of low/mod in service area will be recalculated when this record is submitted when the activity uses Census Data to determine the low/mod percent.

For State and Insular Area grantees, IDIS will verify the county code to ensure that it is a valid one for the state of the grantee.

I306 – Specific Message Field Notes:**CT:**

Census Tract must be submitted in the format 9999.99.

I307 – General Record Information:

The primary key for Record Type I307 consists of fields TIN #, IDIS_ACTV_ID, Census Tract or City Name, RACE_ID. The TIN_NUM field contains the grantee's Employer Identification Number. The Employer Identification Number (EIN) is a type of TIN issued by the IRS to identify a business entity. An EIN is not associated with an individual and as such is not PII.

I307 – Specific Message Field Notes:

1. Send a separate I308 for each Census Tract and City that is included in an activity involving displacement. Do not send both Census and City in the same record.
2. If you are reporting data for a "City", you only need to report the "relocated to" data fields (MSG12, MSG13). If reporting data for a "Census Tract" that you specified on the I307 record type, indicate the number "displaced" from this tract and the number "remaining" in the tract. If the number remaining in is less than the number displaced, you will need to submit an additional census tract or city and identify the number relocated to that area.

I317 – General Record Information:

The primary key for Record Type I317 consists of fields TIN_NUM, IDIS_ACTV_ID, DUNS + DUNS_EXT. The TIN_NUM field contains the grantee's Employer Identification Number. The Employer Identification Number (EIN) is a type of TIN issued by the IRS to identify a business entity. An EIN is not associated with an individual and as such is not PII.

This record should be submitted for activities that assisted businesses (I316: MSG06 or MSG07 greater than zero). A DUNS number should be reported for each business assisted.

The Employer Identification Number (EIN) is a type of TIN issued by the IRS to identify a business entity. An EIN is not associated with an individual and as such is not PII.

This record should only be sent for State CDBG activities that are assisting a colonia area. This narrative should state whether the objectives set out in the annual Action Plan were met.

I319 – Specific Message Field Notes:

1. IDIS can accommodate colonia narrative text of up to 4000 characters. Due to constraints on the maximum length of an EDI record (100 characters total), you must send multiple MSG records to submit the full description. This is done through use of the MSG006 thru MSG044.

I700 – General Record Information:

The primary key for Record Type I700 consists of fields TIN_NUM, IDIS_ACTV_ID, Program, Accomplishment year. The TIN_NUM field contains the grantee's Employer Identification Number. The Employer Identification Number (EIN) is a type of TIN issued by the IRS to identify a business entity. An EIN is not associated with an individual and as such is not PII.

If a single activity has accomplishment data for multiple data (i.e. CDBG, HOME, ESG, HOPWA), send one I700 for each applicable program.

I700 – Specific Message Field Notes:

1. IDIS can accommodate an activity description text of up to 4000 characters. Due to constraints on the maximum length of an EDI record (100 characters total), you must send multiple MSG records to submit the full description. This is done through use of the MSG007 thru MSG046.

I700 – Choices:
