Totals: Hispanic/Latino	This read-only field shows the total number of beneficiaries of all races who are Hispanic.
[Add Another Race by Persons]	Click this button to add beneficiary counts for another race.

## Income Levels

It is important to always report income levels in the appropriate categories. Some grantees, solely to minimize data entry, report all beneficiaries in the Moderate income category. This practice conveys the impression in reports to Congress and other Federal oversight agencies that grantees are ignoring the program's legislative mandate not to benefit moderate-income persons to the exclusion of low-income persons.

Field	Description
Extremely Low	Enter the number of persons benefiting whose income is at or below 30% of the median family income for the area.
Low	Enter the number of persons benefiting whose income is above 30% and at or below 50% of the median family income for the area.
Moderate	Enter the number of persons benefiting whose income is above 50% and at or below 80% of the median family income for the area.
Non-Low/Moderate	Enter the number of persons benefiting whose income is above 80% of the median family income for the area.

Field	Description
Totals	This read-only field shows the sum of the values input in the previous four fields.  The Income Levels TOTALS field and the Race/Ethnicity TOTALS by race field must be equal.
Percent Low/Mod	This read-only field shows the percentage of beneficiaries who are low/mod. It is equal to (EXTREMELY LOW + LOW + MODERATE) divided by TOTALS.

Follow these guidelines when reporting income levels for:

- **Presumed Benefit Activities:** If an LMC\* activity is limited to assisting one or more of the presumptive benefit groups, report the number of persons benefiting under the following income categories unless you have information that supports reporting them under a different income category:

Group	Income Level
Abused children	Extremely low income
Battered spouses	Low income
Severely disabled adults	Low income
Homeless persons	Extremely low income
Illiterate adults	Low income
Persons with AIDS	Low income
Migrant farm workers	Low income
Elderly	If assistance is to acquire, construct, convert, and/or rehabilitate a senior center or to pay for providing center-based senior services, report the beneficiaries as moderate income.  If assistance is for other services (not center-based), report the elderly beneficiaries as low income.

If an activity serves a combination of these groups, identify the number in each group and report those numbers under the appropriate income levels. Estimate race/ethnicity categories either by observation or by using numbers proportionate to the general population.

- **Nature/Location Activities:** Report all beneficiaries as moderate income unless you have information to support reporting them under another income category.
- **Activities Providing Access for Persons with Disabilities:** For LMC activities carried out under 570.483(b)(2)(iii), report all beneficiaries as low income unless you have information to support reporting them under another income category.

Unless you are entering data for an LMCMC activity, click the [Save and Continue] button to display the second accomplishment screen (turn to page 11-10).

## DIRECT BENEFIT DATA BY HOUSEHOLDS

For LMC\* activities with an accomplishment type of 04-Households or 10-Housing Units, race/ethnicity and income levels information is reported by households. Count each household as one, regardless of the number of persons in the household.

**\*Direct Benefit Data by Households**

Race/Ethnicity		Owner		Renter		Total Households	
Race	Total	Hispanic/Latino	Total	Hispanic/Latino	Total	Hispanic/Latino

Currently, the system incorrectly displays the owner/renter categories for LMC activities. Until this is fixed, report data for LMC activities that require information by Household under the owner category.
