Office of Community Planning & Development

August 2008
The Revised Supportive Housing Program (SHP) Desk Guide

- HUD Headquarters recently completed a comprehensive process to review and update guidance in the Supportive Housing Program Desk Guide.

- The SHP Desk Guide was revised for two reasons:
  - to create a “living” document that can be updated as new policy issues arise and as rules and regulations change; and
  - to formalize policy guidance provided on an ad hoc basis by HUD program staff.

- Major changes include new or clarified guidance on eligible participants, eligible activities and grant administration issues.
SHP Desk Guide Revision Process

- Over the past 3 years, HUD staff have been working with a technical assistance provider to revise the SHP Desk Guide.
- During the revision process, HUD solicited feedback on format, appearance and user-friendliness of the Guide.
- HUD also vetted draft policy guidance with a number of Field Offices and other HUD staff.
- The revised SHP Desk Guide incorporates many of the changes suggested by reviewers.
How is the SHP Desk Guide organized?

- The Desk Guide contains an Introduction, followed by a Glossary of Key Terms.
- Specific topics are organized by Sections (e.g., Section A: Program Goals, Section B: Eligible Participants, etc.).
- Some sections have Frequently Asked Questions that respond to special concerns or circumstances addressed in the text.
