Why Get Vaccinated?

To Protect Yourself, Your Family, and Your Community

- Building defenses against COVID-19 in your community is a team effort. And **you** are a key part of that defense.

- Getting the COVID-19 vaccine adds **one more layer of protection** for you and your community.

Here are ways you can help protect yourself and others from COVID-19:

- **Get vaccinated** and make a plan for your second dose. Talk to a caseworker or shelter staff if you have questions.
- **Tell others why** you are getting vaccinated and encourage them to get vaccinated.
- **Have conversations** with family and friends about why you chose to get vaccinated for COVID-19.
