

# MULTIFAMILY UTILITY DATA COLLECTION DATABASE

For multifamily building owners with utility accounts paid for by tenants, benchmarking energy consumption can be challenging, in part because each utility provider requires owners to follow a different procedure to access tenant-level energy consumption data.

This database helps owners navigate that challenge with a comprehensive catalogue of many major United States utilities and their procedures to release tenant-level and whole building energy use and cost data.

This utility profile summarizes the process for requesting data from **Baltimore Gas & Electric (BGE)**. See the back page for detailed instructions and definitions. Visit the [HUD Exchange](#) to find the full utility database.

## DEFINITIONS

**AGGREGATED DATA:** Some utilities can consolidate data for entire properties, rather than for each tenant. This option eliminates a need to collect forms from tenants to access data.

**ANTICIPATED DIFFICULTY:** This database scores utilities based on their ability to provide tenant data, aggregated data, whether they charge to release data, and format of the data they provide.

**BENCHMARKING ORDINANCE:** Some jurisdictions have legislation that requires building owners to benchmark their buildings. Utilities in these regions typically provide better access to data.

**GREEN BUTTON:** A standard data format that utilities can use to issue energy use data.

**PORTFOLIO MANAGER:** The Environmental Protection Agency's Portfolio Manager is a free tool that property owners can use to evaluate building performance. Some utilities have compatibility with the tool's Web Services feature, which can auto-populate energy data.

**TENANT WAIVER:** To protect customer privacy, many utilities require building owners to collect tenant waivers before they will release data to the owner.

---

## POTENTIAL CHALLENGES WORKING WITH THIS UTILITY

Challenge 1: Utility company does not have the ability to provide aggregated whole-building data for residential buildings.

Challenge 2: Utility company does not release cost information to third parties.

## HOW TO REQUEST DATA FROM THIS UTILITY

### HOW TO REQUEST TENANT-LEVEL DATA

Step 1: For properties with fewer than 25 accounts, property owners or their representatives should email tenant release forms to [myhomerep@bge.com](mailto:myhomerep@bge.com). For requests of 25 or more accounts, representatives should submit requests to email [customercorrespondencedesk@constellation.com](mailto:customercorrespondencedesk@constellation.com). Representatives may use generic tenant release forms.

Step 2: Within 4-7 days the utility company will provide usage history in Excel format. If owner or owner representative is seeking billing cost history the utility would recommend using the usage and Green Button website.

### HOW TO REQUEST AGGREGATED WHOLE-BUILDING DATA

Not applicable. Utility does not release aggregated data for residential buildings.

*Disclaimer: This data is current as of 3/29/17. Please note that utilities regularly update energy data release policies. This database includes scores, challenges, and steps associated with obtaining tenant data for multifamily properties, as reported by customer service agents. Contact your utility to confirm their process before requesting data.*
